ADLER VALUE FUND

Investor Class (ADLFX)

Institutional Class (ADLVX)

Series of
ULTIMUS MANAGERS TRUST
225 Pictoria Drive, Suite 450
Cincinnati, Ohio 45246

This Statement of Additional Information (“SAI”) should be read in conjunction with the Prospectus for the Adler Value Fund (the “Fund”) dated September 28, 2020, which may be supplemented from time to time (the “Prospectus”). This SAI is incorporated by reference in its entirety into the Prospectus. Because this SAI is not itself a prospectus, no investment in shares of the Fund should be made solely upon the information contained herein. Copies of the Prospectus may be obtained without charge, upon request, by writing the Fund at P.O. Box 46707, Cincinnati, Ohio 45246-0707 or by calling toll-free 1-800-408-4682 or by visiting the Fund’s website at www.adlervaluefund.com.

STATEMENT OF ADDITIONAL INFORMATION

The Adler Value Fund (the “Fund”) is a non-diversified series of Ultimus Managers Trust (the “Trust”), an open-end management investment company. The Trust is an unincorporated business trust that was organized under Ohio law on February 28, 2012. The Fund’s investments are managed by Adler Asset Management, LLC (the “Adviser”). For further information on the Fund, please call 1-800-408-4682 or by visiting the Fund’s website at www.adlervaluefund.com.

ADDITIONAL INFORMATION ON INVESTMENTS, STRATEGIES AND RISKS

Information contained in this SAI expands upon information contained in the Prospectus. All investments in securities and other financial instruments involve a risk of financial loss. No assurance can be given that the Fund’s investment programs will be successful. Investors should carefully review the descriptions of the Fund’s investments and associated risks described in the Prospectus and this SAI. No investment in shares of the Fund should be made without first reading the Prospectus. Unless otherwise indicated, percentage limitations apply at the time of purchase of the applicable securities.

General Investment Risks. Prices of securities in which the Fund invests may fluctuate in response to many factors, including, but not limited to, the activities of the individual companies whose securities the Fund owns, general market and economic conditions, interest rates, and specific industry changes. Such price fluctuations subject the Fund to potential losses. In addition, regardless of any one company’s particular prospects, a declining stock market may produce a decline in prices for all securities, which could also result in losses to the Fund. Market declines may continue for an indefinite period of time, and investors should understand that during temporary or extended bear markets, the value of all types of securities, including securities held by the Fund, can decline.

Market Risk. Market risk is the risk that the value of the securities in the Fund’s portfolio may decline due to daily fluctuations in the securities markets that are generally beyond the Adviser’s control, including fluctuation in interest rates, the quality of the Fund’s investments, economic conditions and general market conditions. Certain market events could increase volatility and exacerbate market risk, and could result in trading halts, such as changes in governments’ economic policies, political turmoil, environmental events, trade disputes, terrorism, military action and epidemics, pandemics or other public health issues. Any of the foregoing market events can adversely affect the economies of one or more countries or the entire global economy, certain industries or individual issuers, and capital and security markets in ways that cannot necessarily be foreseen or quickly addressed.

As shown with the novel coronavirus disease that has recently emerged (“COVID-19”), market events (including public health crises and concerns) can have a profound economic and business effect that results in cancellations and disruptions to supply chains and customer activity, disruption and displacement of one or more sectors or industries, closing of borders and imposition of travel restrictions and quarantines, general public concern and uncertainty and, in extreme cases, exchange trading halts due to rapidly falling prices. Further, the impact of COVID-19 has caused significant volatility and declines in global financial markets, including the U.S. financial markets. The duration and lasting impact of the COVID-19 outbreak is unclear and may not be fully known for some time.

Market events such as these and other types of market events may cause significant declines in the values and liquidity of many securities and other instruments, and significant disruptions to global business activity and financial markets. Turbulence in financial markets, and reduced liquidity in equity, credit and fixed income markets may negatively affect many issuers both domestically and around the world, and can result in trading halts, any of which could have an adverse impact on the Fund. During periods of market volatility, security prices (including securities held by the Fund) could change drastically and rapidly and therefore adversely affect the Fund.

Diversification. The Fund is non-diversified. A non-diversified fund is a fund that does not satisfy the definition of a “diversified company” set forth in the Investment Company Act of 1940 (the “1940 Act”). A “diversified company” means that as to 75% of the Fund’s total assets (1) no more than 5% may be invested in the securities of a single issuer, and (2) the Fund may not hold more than 10% of the outstanding voting securities of a single issuer. As a result of being a non-diversified fund, the Fund may invest a greater percentage of its assets in a particular issuer and hold securities in only a few issuers.

Since the Fund intends to qualify as a “regulated investment company” under the Internal Revenue Code of 1986, as amended, (the “Code”), the Fund will seek to limit its investment, excluding cash, cash items (including receivables), United States (“U.S.”) government securities and securities of other regulated investment companies, so that at the close of each quarter of the taxable year, (1) not more than 25% of the Fund’s total assets will be invested in the securities of a single issuer, and (2) with respect to 50% of its total assets, not more than 5% of the Fund’s total assets will be invested in the securities of a single issuer nor represent more than 10% of the issuer’s outstanding voting securities.

Because the Fund may invest a great percentage of its assets in the securities of fewer issuers, the Fund is subject to the risk that its performance may be hurt disproportionately by the poor performance of relatively few securities.

Equity Securities. The equity portion of the Fund’s portfolio will generally be comprised of domestic and foreign issuers, including common stocks, depositary receipts evidencing ownership in foreign common stocks, preferred stocks, securities convertible into common stocks and securities that carry the right to buy common stocks, traded on domestic or foreign securities exchanges or over-the counter (“OTC”) markets. The prices of equity securities in which the Fund invests may fluctuate in response to many factors, including, but not limited to, the activities of the individual companies whose securities the Fund owns, general market and economic conditions, interest rates, and specific industry changes. Such price fluctuations subject the Fund to potential losses. In addition, regardless of any one company’s particular prospects, a declining stock market may produce a decline in prices for all equity securities, which could also result in losses for the Fund.

Common Stock. The Fund may purchase common stock. Prices of common stock may fluctuate in response to many factors, including, but not limited to, the activities of the individual companies whose stock the Fund owns, general market and economic conditions, interest rates, and specific industry changes. Such price fluctuations subject the Fund to potential losses. In addition, regardless of any one company's particular prospects, a declining stock market may produce a decline in prices for all stocks, which may also result in losses for the Fund. Market declines may continue for any indefinite period of time, and investors should understand that during temporary or extended bear markets, the value of common stocks, including common stocks held by the Fund, will likely decline.

Preferred Stock. The Fund may invest in preferred stock. Preferred stocks are securities that represent an ownership interest providing the holder with claims on the issuer's earnings and assets before common stock owners but after bond owners. Unlike debt securities, the obligations of an issuer of preferred stock, including dividend and other payment obligations, may not typically be accelerated by the holders of such preferred stock on the occurrence of an event of default or other non-compliance by the issuer of the preferred stock. Preferred stocks may include the obligation to pay a stated dividend. The price of preferred stocks could depend more on the size of the dividend than on the company's performance. If a company fails to pay the dividend, its preferred stock is likely to drop in price. Changes in interest rates can also affect the price of preferred stock. Like common stocks, the value of preferred stock may fluctuate in response to many factors, including the activities of the issuer, general market and economic conditions, interest rates, and industry-specific changes.

Convertible Securities. In addition to common stocks and preferred stocks, the Fund may invest in securities convertible into common stock such as convertible bonds, convertible preferred stocks, and warrants. Convertible bonds are fixed-income securities that may be converted at a stated price within a specified period into a certain quantity of the common stock of the same or a different issuer. Convertible bonds are senior to common stocks in an issuer's capital structure, but are usually subordinated to similar non-convertible securities. While providing a fixed income stream (generally higher in yield than the income derivable from common stock but lower than that afforded by a similar nonconvertible security), a convertible security also provides the investor the opportunity, through its conversion feature, to participate in the capital appreciation of the underlying common stock. Like other debt securities, the value of a convertible bond tends to vary inversely with the level of interest rates. However, to the extent that the market price of the underlying common stock approaches or exceeds the conversion price, the price of the convertible bond will be increasingly influenced by its conversion value (the security's worth, at market value, if converted into the underlying common stock). Although to a lesser extent than with fixed-income securities, the market value of convertible bonds tends to decline as interest rates increase and, conversely, tends to increase as interest rates decline. In addition, because of the conversion feature, the market value of convertible bonds tends to vary with fluctuations in the market value of the underlying common stock. A unique feature of convertible securities is that as the market price of the underlying common stock declines, convertible securities tend to trade increasingly on a yield basis and so may not experience market value declines to the same extent as the underlying common stock. When the market price of the underlying common stock increases, the prices of the convertible securities tend to rise as a reflection of the value of the underlying common stock. While no securities investments are without risk, investments in convertible securities generally entail less risk than investments in common stock of the same issuer.

Warrants and Rights. The Fund may purchase warrants and rights, or it may acquire ownership of such investments by virtue of its ownership of common stocks. Warrants are essentially options to purchase equity securities at specific prices and are valid for a specific period of time. Rights are similar to warrants but generally have a short duration and are distributed directly by the issuer to its shareholders. The holders of warrants and rights have no voting rights, and receive no dividends, with respect to the equity interests underlying warrants or rights, and will have no rights with respect to the assets of the issuer, until the warrant or right is exercised. Investments in warrants and rights involve certain risks, including the possible lack of a liquid market for resale, potential price fluctuations as a result of speculation or other factors, and failure of the price of the underlying security to reach or have reasonable prospects of reaching a level at which the warrant or right can be prudently exercised (in which event the warrant or right may expire without being exercised, resulting in a loss of the Fund's entire investment therein).

Foreign Securities. The Fund may invest in securities issued by foreign governments or foreign corporations, directly or indirectly through exchange traded funds (“ETFs”) or derivative transactions (e.g., foreign currency futures). The Fund may also invest in securities of foreign issuers that trade directly on U.S. and foreign stock exchanges or in the form of American Depositary Receipts (“ADRs”).

ADRs are receipts that evidence ownership of underlying securities issued by a foreign issuer. ADRs are generally issued by a U.S. bank or trust company to U.S. buyers as a substitute for direct ownership of a foreign security and are traded on U.S. exchanges. ADRs, in registered form, are designed for use in the U.S. securities markets. ADRs may be purchased through “sponsored” or “unsponsored” facilities. A sponsored facility is established jointly by the issuer of the underlying security and a depositary. A depositary may establish an unsponsored facility without participation by the issuer of the deposited security. The depositary of an unsponsored ADR is under no obligation to distribute shareholder communications received from the issuer of the deposited security or to pass through voting rights with respect to the deposited security. Investments in ADRs are subject to risks similar to those associated with direct investments in foreign securities. The Fund intends to invest primarily in foreign securities that are listed on U.S. stock exchanges.

Investing in the securities of foreign issuers involves special risks and considerations not typically associated with investing in U.S. companies. The performance of foreign markets does not necessarily track U.S. markets. Foreign investments may be affected favorably or unfavorably by changes in currency rates, exchange control regulations, and capital controls. There may be less publicly available information about a foreign company than about a U.S. company, and foreign companies may not be subject to accounting, auditing and financial reporting standards, and requirements comparable to those applicable to U.S. companies. Foreign securities may trade with less frequency and volume than domestic securities and, therefore, may exhibit less liquidity and greater price volatility than securities of U.S. companies. There may be less governmental supervision of securities markets, brokers and issuers of securities than in the U.S. Changes in foreign exchange rates will affect the value of those securities, which are denominated or quoted in currencies other than the U.S. dollar. Therefore, to the extent the Fund invests in a foreign security, which is denominated or quoted in a currency other than the U.S. dollar, there is a risk that the value of such security will decrease due to changes in the relative value of the U.S. dollar and the security’s underlying foreign currency. Additional costs associated with an investment in foreign securities may include higher custodial fees than those applicable to domestic custodial arrangements, generally higher commission rates on foreign portfolio transactions, and transaction costs of foreign currency conversions. Investments in foreign securities may also be subject to other risks different from those affecting U.S. investments, including local political or economic developments, expropriation or nationalization of assets, restrictions on foreign investment and repatriation of capital, imposition of withholding taxes on dividend or interest payments, currency blockage (which would prevent cash from being brought back to the U.S.), limits on proxy voting and difficulty in enforcing legal rights outside the U.S. Currency exchange rates and regulations may cause fluctuation in the value of foreign securities. In addition, foreign securities and dividends and interest payable on those securities, may be subject to foreign taxes, including taxes withheld from payments on those securities.

Options. The Fund may purchase and write, or sell, put and call options on securities. The Fund may buy and sell options for a number of purposes, including hedging, investment or speculative purposes. For example, it may do so to try to manage its exposure to the possibility that the prices of its portfolio securities may decline, or to establish a position in the securities market as a substitute for purchasing individual securities. Buying puts and writing covered calls may be used to hedge the Fund’s portfolio against price fluctuations. Buying call options tends to increase the Fund’s exposure to the securities market. The Fund may write a call or put option only if the option is “covered” by the Fund’s holding a position in the underlying securities or by other means which would permit immediate satisfaction of the Fund’s obligation as writer of the option. The purchase and writing of options involves certain risks. During the option period, the covered call writer has, in return for the premium on the option, given up the opportunity to profit from a price increase in the underlying securities above the exercise price, but, as long as its obligation as a writer continues, has retained the risk of loss should the price of the underlying security decline. The writer of an option has no control over the time when it may be required to fulfill its obligation as a writer of the option. Once an option writer has received an exercise notice, it cannot effect a closing purchase transaction in order to terminate its obligation under the option and must deliver the underlying securities at the exercise price. If a put or call option purchased by the Fund is not sold when it has remaining value, and if the market price of the underlying security, in the case of a put, remains equal to or greater than the exercise price or, in the case of a call, remains less than or equal to the exercise price, the Fund will lose its entire investment in the option. Also, where a put or call option on a particular security is purchased to hedge against price movements in a related security, the price of the put or call option may move more or less than the price of the related security. There can be no assurance that a liquid market will exist when the Fund seeks to close out an option position. Furthermore, if trading restrictions or suspensions are imposed on the options market, the Fund may be unable to close out a position.

Investment Companies. The Fund may, from time to time, invest in securities of other investment companies, both open-end and closed-end, including, without limitation, money market funds and ETFs. Generally, under the 1940 Act, a fund may not acquire shares of another investment company if, immediately after such acquisition, (i) a fund would hold more than 3% of the other investment company's total outstanding shares, (ii) a fund's investment in securities of the other investment company would be more than 5% of the value of the total assets of the fund, or (iii) more than 10% of a fund's total assets would be invested in investment companies. Under certain conditions, a fund may invest in registered and unregistered money market funds in excess of these limitations. The Fund generally expects to rely on Rule 12d1-1 under the 1940 Act when purchasing shares of a money market fund. Under Rule 12d1-1, the Fund may generally invest without limitation in money market funds as long as the Fund pays no sales charge ("sales charge"), as defined in rule 2830(b)(8) of the Conduct Rules of the Financial Industry Regulatory Authority ("FINRA"), or service fee, as defined in rule 2830(b)(9) of the Conduct Rules of FINRA, charged in connection with the purchase, sale, or redemption of securities issued by the money market fund ("service fee"); or the Adviser waives its management fee in an amount necessary to offset any sales charge or service fee. The Fund generally expects to rely on Section 12(d)(1)(F) of the 1940 Act when purchasing shares of other investment companies that are not money market funds. Under Section 12(d)(1)(F), the Fund may generally acquire shares of another investment company unless, immediately after such acquisition, the Fund and its affiliated persons would hold more than 3% of the investment company's total outstanding stock (the "3% Limitation"). To the extent the 3% Limitation applies to an investment the Fund wishes to make, the Fund may be prevented from allocating its investments in the manner that the Adviser considers optimal. Also, under the 1940 Act, to the extent that the Fund relies upon Section 12(d)(1)(F) in purchasing securities issued by another investment company, the Fund must either seek instructions from its shareholders with regard to the voting of all proxies with respect to its investment in such securities and vote such proxies only in accordance with the instructions, or vote the shares held by it in the same proportion as the vote of all other holders of the securities. In the event that there is a vote of investment company shares held by the Fund in reliance on Section 12(d)(1)(F), the Fund intends to vote such shares in the same proportion as the vote of all other holders of such securities. Investments in other investment companies subjects the Fund to additional operating and management fees and expenses. For example, the Fund's investors will indirectly bear fees and expenses charged by underlying investment companies in which the Fund invests, in addition to the Fund's direct fees and expenses.

Exchange Traded Funds (“ETFs”). The Fund may invest in shares of ETFs. An ETF is typically an investment company registered under the 1940 Act that holds a portfolio of common stocks designed to track the performance of a particular index or market sector. Alternatively, ETFs may be actively managed pursuant to a particular investment strategy, similar to other non-index based investment companies. ETFs are traded on a securities exchange based on their market value. In addition, ETFs sell and redeem their shares at net asset value (“NAV”) in large blocks (typically 50,000 of its shares) called “creation units.” Shares representing fractional interests in these creation units are listed for trading on national securities exchanges and can be purchased and sold in the secondary market like ordinary stocks in lots of any size at any time during the trading day.

An investment in an ETF generally presents the same primary risks as an investment in a conventional registered investment company (i.e., one that is not exchange traded), including the risk that the general level of securities prices, or that the prices of securities within a particular sector, may increase or decrease, thereby affecting the value of the shares of an ETF. In addition, ETFs are subject to the following risks that do not apply to conventional registered investment companies: (1) the market price of the ETF’s shares may trade at a discount to the ETF’s NAV; (2) an active trading market for an ETF’s shares may not develop or be maintained; (3) trading of an ETF’s shares may be halted if the listing exchange deems such action appropriate; (4) ETF shares may be delisted from the exchange on which they trade; and (5) activation of “circuit breakers” by the exchange (which are tied to large decreases in stock prices) may halt trading of the ETF’s shares temporarily. ETFs are also subject to the risks of the underlying securities or sectors the ETF is designed to track.

Because ETFs and pools that issue similar instruments bear various fees and expenses, the Fund will pay a proportionate share of these expenses, as well as transaction costs, such as brokerage commissions. As with traditional investment companies, ETFs charge asset-based fees, although these fees tend to be relatively low as compared to other types of investment companies. ETFs do not charge initial sales loads or redemption fees and investors pay only customary brokerage fees to buy and sell ETF shares.

The U.S. Securities and Exchange Commission (the “SEC”) has granted orders for exemptive relief to certain ETFs that permit investments in those ETFs by other investment companies (such as the Fund) in excess of some of the limits discussed above under the section entitled “Investment Companies”. The Fund may invest in ETFs that have received such exemptive orders from the SEC, pursuant to the conditions specified in such orders. In accordance with Section 12(d)(1)(F)(i) of the 1940 Act, the Fund may also invest in ETFs that have not received such exemptive orders and in other investment companies in excess of these limits, as long as the Fund (and all of its affiliated persons, including the Adviser) does not acquire more than the 3% Limitation, unless otherwise permitted to do so pursuant to permission granted by the SEC. In purchasing ETFs, the Fund will be subject to the 3% Limitation unless (i) the ETF or the Fund has received a SEC order for exemptive relief from the 3% Limitation that is applicable to the Fund; and (ii) the ETF and the Fund take appropriate steps to comply with any conditions in such order. The SEC has issued such exemptive orders to numerous ETFs and their investment advisers, which permit investment companies, including the Fund, to invest in such ETFs (“Exempted ETFs”) beyond the 3% Limitation, subject to certain terms and conditions, including that such investment companies enter into an agreement with the Exempted ETF. The Fund may enter into such agreements with one or more Exempted ETFs so that the Fund will be permitted to invest in such Exempted ETFs in excess of the 3% Limitation. If the Fund seeks to redeem shares of an ETF or other investment company purchased in reliance on Section 12(d)(1)(F), the investment company is not obligated to redeem an amount exceeding 1% of the investment company’s outstanding shares during a period of less than 30 days.

While the creation and redemption of creation units helps an ETF maintain a market value close to NAV, the market value of an ETF’s shares may differ from its NAV. This difference in price may be due to the fact that the supply and demand in the market for ETF shares at any point in time is not always identical to the supply and demand in the market for the ETF’s underlying basket of securities. Accordingly, there may be times when an ETF trades at a premium (creating the risk that the Fund pays more than NAV for an ETF when making a purchase) or discount (creating the risks that the Fund’s NAV is reduced for undervalued ETFs it holds, and that the Fund receives less than NAV when selling an ETF).

Money Market Instruments. The Fund may invest in money market instruments, which may include, without limitation, U.S. Government Obligations or corporate debt obligations (including those subject to repurchase agreements) as described herein. Money market instruments also may include Banker's Acceptances, Certificates of Deposit of domestic branches of U.S. banks, Commercial Paper, Variable Amount Demand Master Notes ("Master Notes") and shares of money market investment companies. The Fund may invest in shares of money market investment companies to the extent permitted by the 1940 Act.

Banker's Acceptances are time drafts drawn on and "accepted" by a bank, which are the customary means of effecting payment for merchandise sold in import-export transactions and are a source of financing used extensively in international trade. When a bank "accepts" such a time draft, it assumes liability for its payment. When the Fund acquires a Banker's Acceptance, the bank which "accepted" the time draft is liable for payment of interest and principal when due. The Banker's Acceptance, therefore, carries the full faith and credit of such bank.

A *Certificate of Deposit* ("CD") is an unsecured, interest bearing debt obligation of a bank.

Commercial Paper is an unsecured, short-term debt obligation of a bank, corporation, or other borrower. Commercial Paper maturity generally ranges from two to 270 days and is usually sold on a discounted basis rather than as an interest-bearing instrument. The Fund will invest in Commercial Paper only if it is rated in the highest rating category by any nationally recognized statistical rating organization ("NRSRO") or, if not rated, if the issuer has an outstanding unsecured debt issue rated in the three highest categories by any NRSRO or, if not so rated, is of equivalent quality in the Adviser's assessment. Commercial Paper may include Master Notes of the same quality.

Master Notes are unsecured obligations which are redeemable upon demand of the holder and which permit the investment of fluctuating amounts at varying rates of interest. Master Notes will be acquired by the Fund only through the Master Note program of the Fund's custodian bank, acting as administrator thereof. The Adviser will monitor, on a continuous basis, the earnings power, cash flow, and other liquidity ratios of the issuer of a Master Note held by the Fund.

Debt Securities. The Fund may invest in corporate debt securities and U.S. Government Obligations. Corporate securities include, but are not limited to, debt obligations offered by public or private corporations either registered or unregistered. The market value of such securities may fluctuate in response to interest rates and the creditworthiness of the issuer. A debt instrument's credit quality depends on the issuer's ability to pay interest on the security and repay the debt; the lower the credit rating, the greater the risk that the security's issuer will default. The credit risk of a security may also depend on the credit quality of any bank or financial institution that provides credit enhancement for the security. In the case of corporate debt, the Fund will normally purchase investment grade securities, meaning securities rated BBB or better by Standard & Poor's or any comparable rating by another NRSRO or, if unrated, as determined by the Adviser to be of comparable quality.

U.S. Government Obligations. The Fund may invest in U.S. Government Obligations. "U.S. Government Obligations" include securities which are issued or guaranteed by the U.S. Treasury, by various agencies of the U.S. government, and by various instrumentalities which have been established or sponsored by the U.S. government. U.S. Treasury obligations are backed by the "full faith and credit" of the U.S. government. U.S. Treasury obligations include Treasury Bills, Treasury Notes, and Treasury Bonds. Treasury Bills have initial maturities of one year or less; Treasury Notes have initial maturities of one to ten years; and Treasury Bonds generally have initial maturities of greater than ten years.

Agencies and instrumentalities established by the U.S. government include the Federal Home Loan Banks, the Federal Land Bank, the Government National Mortgage Association, the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation, the Small Business Administration, the Bank for Cooperatives, the Federal Intermediate Credit Bank, the Federal Financing Bank, the Federal Farm Credit Banks, the Federal Agricultural Mortgage Corporation, the Resolution Funding Corporation, the Financing Corporation of America and the Tennessee Valley Authority. Some of these securities are supported by the full faith and credit of the U.S. government while others are supported only by the credit of the agency or instrumentality, which may include the right of the issuer to borrow from the U.S. Treasury. In the case of U.S. Government Obligations not backed by the full faith and credit of the U.S. government, the investor must look principally to the agency or instrumentality issuing or guaranteeing the obligation for ultimate repayment, and may not be able to assert a claim against the U.S. government itself in the event the agency or instrumentality does not meet its commitment. U.S. Government Obligations are subject to price fluctuations based upon changes in the level of interest rates, which will generally result in all those securities changing in price in the same way, i.e., all those securities experiencing appreciation when interest rates decline and depreciation when interest rates rise. Any guarantee of the U.S. government will not extend to the yield or value of the Fund's shares.

Repurchase Agreements. The Fund may invest, directly or indirectly, in repurchase agreements. A repurchase agreement transaction occurs when an investor (e.g., the Fund) purchases a security (normally a U.S. government security) from a counterparty with the understanding that the investor will later resell the security to the same counterparty (normally a member bank of the Federal Reserve or a registered government securities dealer). The Fund's initial purchase is essentially a loan to the counterparty that is collateralized by the security (and/or securities substituted for them under the repurchase agreement). The Fund must return the security to the counterparty when the counterparty repurchases it at a later date and higher price. The repurchase price exceeds the purchase price by an amount that reflects an agreed upon market interest rate effective for the period of time during which the repurchase agreement is in effect. Delivery pursuant to the resale normally will occur within one to seven days of the purchase. Repurchase agreements are considered "loans" under the 1940 Act, collateralized by the underlying security. The Trust has implemented procedures to monitor on a continuous basis the value of the collateral serving as security for repurchase obligations. The Adviser will consider the creditworthiness of the counterparty. If the counterparty fails to pay the agreed upon resale price on the delivery date, the Fund will retain or attempt to dispose of the collateral. The Fund's risk is that such default may include any decline in value of the collateral to an amount which is less than 100% of the repurchase price, any costs of disposing of such collateral, and any loss resulting from any delay in foreclosing on the collateral. The Fund will not enter into any repurchase agreement that would cause more than 15% of its net assets to be invested in repurchase agreements that extend beyond seven days.

Illiquid Investments. The Fund may not purchase or otherwise acquire any illiquid investment if, immediately after the acquisition, the value of illiquid investments held by the Fund would exceed 15% of the Fund's net assets. An illiquid investment is any investment that the Fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment. Illiquid investments pose risks of potential delays in resale and uncertainty in valuation. Limitations on resale may have an adverse effect on the marketability of portfolio investments and the Fund may be unable to dispose of illiquid investments promptly or at reasonable prices. Under the supervision of the Trust's Board of Trustees (the "Board"), the Adviser determines the liquidity of the Fund's investments and, through reports from the Adviser, the Trustees monitor investments in illiquid investments. If through a change in values, net assets, or other circumstances, the Fund was in a position where more than 15% of its net assets were invested in illiquid investments, it would seek to take appropriate steps to bring the Fund's illiquid investments to or below 15% of its net assets per the requirements of Rule 22e-4 of the 1940 Act. The sale of some illiquid and other types of investments may be subject to legal restrictions.

If the Fund invests in investments for which there is no ready market, the Fund may not be able to readily sell such investments. Such investments are unlike investments that are traded in the open market, and which can be expected to be sold immediately if the market is adequate. The sale price of illiquid investments once realized may be lower or higher than the Adviser's most recent estimate of their fair market value. Generally, less public information is available about issuers of such illiquid investments than about companies whose investments are publicly traded.

Restricted Securities. Within its limitation on investment in illiquid investments, the Fund may purchase restricted securities that generally can be sold in privately negotiated transactions, pursuant to an exemption from registration under the federal securities laws, or in a registered public offering. Where registration is required, the Fund may be obligated to pay all or part of the registration expense and a considerable period may elapse between the time it decides to seek registration and the time the Fund may be permitted to sell a security under an effective registration statement. If during such a period adverse market conditions were to develop, the Fund might obtain a less favorable price than prevailed when it decided to seek registration of the security.

Restricted securities are generally considered to be illiquid unless it is determined, based upon a review of the trading markets for a specific restricted security, that such restricted security is liquid because it is so-called "4(a)(2) commercial paper" or is otherwise eligible for resale pursuant to Rule 144A under the Securities Act of 1933, as amended ("144A Securities"). Investing in 144A Securities may decrease the liquidity of the Fund's portfolio to the extent that qualified institutional buyers become for a time uninterested in purchasing these restricted securities. The purchase price and subsequent valuation of restricted securities normally reflect a discount, which may be significant, from the market price of comparable securities for which a liquid market exists.

Borrowing Money. The Fund does not intend to borrow money for the purpose of purchasing securities, but may, subject to the restrictions of the 1940 Act, borrow up to 33 1/3% of its total assets, including the amount of such borrowing, to maintain necessary liquidity to make payments for redemptions of Fund shares or for temporary emergency purposes. Borrowing involves the creation of a liability that requires the Fund to pay interest. In the event the Fund should ever borrow money under these conditions, such borrowing could increase the Fund's costs and thus reduce the value of the Fund's assets. In an extreme case, if the Fund's current investment income were not sufficient to meet the interest expense of borrowing, it could be necessary for the Fund to liquidate certain of its investments at an inappropriate time.

Lending of Portfolio Securities. In order to generate additional income, the Fund may lend portfolio securities in an amount up to 33 1/3% of its total assets to broker-dealers, major banks, or other recognized domestic institutional borrowers of securities that the Adviser has determined are creditworthy under guidelines established by the Board. In determining whether the Fund will lend securities, the Adviser will consider all relevant facts and circumstances. The Fund may not lend securities to any company affiliated with the Adviser. Each loan of securities will be collateralized by cash, securities, or letters of credit. The Fund might experience a loss if the borrower defaults on the loan.

The borrower at all times during the loan must maintain with the Fund collateral in the form of cash or cash equivalents, or provide to the Fund an irrevocable letter of credit equal in value to at least 100% of the value of the securities loaned. While the loan is outstanding, the borrower will pay the Fund any dividends or interest paid on the loaned securities, and the Fund may invest the cash collateral to earn additional income. Alternatively, the Fund may receive an agreed-upon amount of interest income from the borrower who has delivered equivalent collateral or a letter of credit. It is anticipated that the Fund may share with the borrower some of the income received on the collateral for the loan or the Fund will be paid a premium for the loan. Loans are subject to termination at the option of the Fund or the borrower at any time. The Fund may pay reasonable administrative and custodial fees in connection with a loan, and may pay a negotiated portion of the income earned on the cash to the borrower or placing broker. As with other extensions of credit, there are risks of delay in recovery or even loss of rights in the collateral should the borrower fail financially. If the Fund invests the cash collateral from the borrower, there is the risk that such investment may result in a financial loss. In such an event, the Fund would be required to repay the borrower out of the Fund's assets.

Where voting rights with respect to the loaned securities pass with the lending of the securities, the Adviser normally intends to call the loaned securities to vote proxies, or to use other practicable and legally enforceable means to obtain voting rights, when the Adviser believes a material event affecting the loaned securities will occur or the Adviser otherwise believes it necessary to vote.

The Fund did not engage in the lending of portfolio securities during the past fiscal period.

Economic and Regulatory Risks. Domestic and foreign governments and agencies thereof often adopt an active approach to managing economic conditions within a nation, which may have material effects on the securities markets within the nation. A government may pursue supportive policies that include, but are not limited to, lowering corporate and personal tax rates and launching stimulative government spending programs designed to improve the national economy or sectors thereof. Agencies of a government, including central banks, may pursue supporting policies that include, but are not limited to, setting lower interest rate targets and buying and selling securities in the public markets. Governments and agencies thereof may also attempt to slow economic growth if the pace of economic growth is perceived to be too great and pose a long-term risk to the economy or a sector thereof. In each instance, the actions taken may be less successful than anticipated or may have unintended adverse consequences. Such a failure or investor perception that such efforts are failing could negatively affect securities markets generally, as well as result in higher interest rates, increased market volatility and reduced value and liquidity of certain securities, including securities held by the Fund.

In addition, governments and agencies thereof may enact additional regulation or engage in deregulation that negatively impacts the general securities markets or a sector thereof. Given the potential broad scope and sweeping nature of some regulatory actions, the potential impact a regulatory action may have on securities held by the Fund may be difficult to determine and may not be fully known for an extended period of time. Accordingly, regulatory actions could adversely affect the Fund.

Changing Fixed Income Market Conditions. Following the financial crisis that began in 2007, the U.S. government and the Board of Governors of the Federal Reserve System (the “Federal Reserve”), as well as certain foreign governments and central banks, took steps to support financial markets, including seeking to maintain interest rates at or near historically low levels and by purchasing large quantities of fixed income securities on the open market, such as securities issued or guaranteed by the U.S. government, its agencies or instrumentalities (“Quantitative Easing”). Similar steps appear to be taking place again in 2020 in an effort to support the economy during the COVID-19 pandemic. It is unclear how long these policies will last. In addition, this and other government interventions may not work as intended, particularly if the efforts are perceived by investors as being unlikely to achieve the desired results. When the Federal Reserve determines to “taper” or reduce Quantitative Easing and/or raise the federal funds rate, there is a risk that interest rates across the U.S. financial system will rise. Such policy changes may expose fixed-income and related markets to heightened volatility and may reduce liquidity for certain fixed income investments, including fixed income investments held by the Fund, which could cause the value of the Fund’s investments and share price to decline. To the extent that the Fund invests in derivatives tied to fixed income markets, the Fund will be more substantially exposed to these risks than a fund that does not invest in such derivatives.

Cybersecurity Risk. The Fund and its service providers may be subject to operational and information security risks resulting from breaches in cybersecurity. A breach in cybersecurity refers to both intentional and unintentional events that may cause the Fund to lose or compromise confidential, proprietary or private personal information, suffer data corruption or lose operational capacity. Breaches in cybersecurity include, among other things, stealing or corrupting data maintained online or digitally, denial of service attacks on websites, the unauthorized release of confidential, proprietary or private personal information or various other operational disruptions. Successful cybersecurity breaches of the Fund and/or the Fund’s investment adviser, distributor, custodian, transfer agent, or other third-party service providers may adversely impact the Fund and its shareholders. For instance, a successful cybersecurity breach may interfere with the processing of shareholder transactions, impact the Fund’s ability to calculate its NAV, cause the release of proprietary or private personal shareholder information, impede trading, subject the Fund to regulatory fines or financial losses, and/or cause reputational damage. The Fund relies on third-party service providers for many of the day-to-day operations, and is therefore subject to the risk that the protections and protocols implemented by those service providers will be ineffective in protecting the Fund from cybersecurity breaches. Similar types of cybersecurity risks are also present for issuers of securities in which the Fund may invest, which could result in material adverse consequences for such issuers and may cause the Fund’s investments in such companies to lose value. There is no guarantee the Fund will be successful in protecting against cybersecurity breaches.

Temporary Defensive Positions. The Fund may from time to time take temporary defensive positions that are inconsistent with its principal investment strategies. If the Adviser believes a temporary defensive position is warranted in view of market conditions, the Fund may hold cash or invest up to 100% of its assets in high-quality short-term government or corporate obligations, money market instruments or shares of money market mutual funds. Taking a temporary defensive position may prevent the Fund from achieving its investment objective.

Operational Risk. An investment in the Fund involves operational risk arising from factors such as processing errors, human errors, inadequate or failed internal or external processes, failures in systems and technology, changes in personnel and errors caused by third-party service providers. Any of these failures or errors could result in a loss or compromise of information, regulatory scrutiny, reputational damage or other events, any of which could have a material adverse effect on the Fund. While the Fund seeks to minimize such events through controls and oversight, there is no guarantee that the Fund will not suffer losses due to operational risk.

Portfolio Turnover. The portfolio turnover rate for the Fund is calculated by dividing the lesser of the Fund’s purchases or sales of portfolio securities for the year by the monthly average value of the securities. The Fund’s portfolio turnover rate may vary greatly from year to year as well as within a particular year, and may also be affected by cash requirements for redemption of shares. High portfolio turnover rates will generally result in higher transaction costs to the Fund, including brokerage commissions, and may result in additional tax consequences to the Fund’s shareholders. Portfolio turnover will not be a factor in making buy and sell decisions for the Fund. For the fiscal year ended July 31 and fiscal period ended May 31, the portfolio turnover rate of the Fund was:

Fiscal Period/Year Ended	Portfolio Turnover Rate
May 31, 2020*	4%
July 31, 2019	0%

* The fiscal year end of the Fund changed from July 31st to May 31st.

INVESTMENT RESTRICTIONS

The Fund has adopted the following fundamental investment limitations that may not be changed without the affirmative vote of a majority of the outstanding shares of the Fund. As used in the Prospectus and this SAI, the term “majority” of the outstanding shares of the Fund means the lesser of (1) 67% or more of the outstanding voting securities of the Fund present at a meeting, if the holders of more than 50% of the outstanding voting securities of the Fund are present or represented at such meeting; or (2) more than 50% of the outstanding voting securities of the Fund. Unless otherwise indicated, percentage limitations apply at the time of purchase of the applicable securities. See the Prospectus for more information about the Fund’s investment objective and investment strategies, each of which are not fundamental and may be changed without shareholder approval.

FUNDAMENTAL RESTRICTIONS. As a matter of fundamental policy:

1. Borrowing Money. The Fund will not borrow money except as permitted under the 1940 Act. For example, subject to the restrictions of the 1940 Act the Fund may borrow money from banks to meet redemption requests or for extraordinary or emergency purposes.

2. Senior Securities. The Fund will not issue senior securities, except as permitted by the 1940 Act, the rules and regulations promulgated thereunder or interpretations of the SEC or its staff.

3. Underwriting. The Fund will not act as underwriter, except to the extent that, in connection with the disposition of portfolio securities (including restricted securities), the Fund may be deemed an underwriter under certain federal securities laws or in connection with investments in other investment companies.

4. Real Estate. The Fund will not directly purchase or sell real estate. This limitation is not applicable to investments in marketable securities which are secured by or represent interests in real estate. This limitation does not preclude the Fund from holding or selling real estate acquired as a result of the Fund's ownership of securities or other instruments, investing in mortgage-related securities or investing in companies engaged in the real estate business or that have a significant portion of their assets in real estate (including real estate investment trusts).

5. Commodities. The Fund will not purchase or sell commodities unless acquired as a result of ownership of securities or other investments. This limitation does not preclude the Fund from purchasing or selling options, forward contracts, or futures contracts, including those relating to indices, or options on futures contracts or indices, or from investing in securities or other instruments backed by commodities or from investing in companies which are engaged in a commodities business or have a significant portion of their assets in commodities.

6. Loans. The Fund will not make loans to other persons, provided that the Fund may lend its portfolio securities in an amount up to 33% of total Fund assets, and provided further that, for purposes of this restriction, investment in U.S. Government Obligations, short-term commercial paper, certificates of deposit, bankers' acceptances, repurchase agreements and any other lending arrangement permitted by the 1940 Act, any rules and regulations promulgated thereunder or interpretations of the SEC or its staff shall not be deemed to be the making of a "loan". For purposes of this limitation, the term "loans" shall not include the purchase of a portion of an issue of publicly distributed bonds, debentures or other debt securities.

7. Concentration. The Fund will not invest more than 25% of its total assets in a particular industry. This limitation is not applicable to investments in obligations issued or guaranteed by the U.S. government (including its agencies and instrumentalities) or state or municipal governments and their political subdivisions (other than revenue bonds issued in connection with an identifiable industry; e.g., healthcare or education) or repurchase agreements with respect thereto, or investments in registered investment companies.

With respect to the "fundamental" investment restrictions above, if a percentage limitation is adhered to at the time of investment, a later increase or decrease in percentage resulting from any change in value or net assets will not result in a violation of such restriction (i.e., percentage limitations are determined at the time of purchase); provided, however, that the treatment of the fundamental restrictions related to borrowing money and issuing senior securities are exceptions to this general rule and are monitored on an ongoing basis.

Senior securities may include any obligation or instrument issued by a fund evidencing indebtedness. The 1940 Act generally prohibits funds from issuing senior securities, although it does not treat certain transactions as senior securities, such as certain borrowings, short sales, reverse repurchase agreements, firm commitment agreements standby commitments and trading practices which would be deemed to involve the issuance of a senior security, including options, futures and forward contracts, with appropriate earmarking or segregation of assets to cover such obligation.

The 1940 Act permits the Fund to borrow money from banks in an amount up to one-third of its total assets (including the amount borrowed) less its liabilities (not including any borrowings but including the fair market value at the time of computation of any other senior securities then outstanding). In general, the Fund may not issue any class of senior security, except that the Fund may (i) borrow from banks, provided that immediately following any such borrowing there is an asset coverage of at least 300% for all Fund borrowings and in the event such asset coverage falls below 300% the Fund will within three days (excluding holidays and Sundays) or such longer period as the SEC may prescribe by rules and regulation, reduce the amount of its borrowings to an extent that the asset coverage of such borrowings shall be at least 300%, and (ii) engage in trading practices which could be deemed to involve the issuance of a senior security, including options, futures, forward contracts and reverse repurchase agreements, provided that the Fund earmarks or segregates liquid assets in accordance with applicable SEC regulations and interpretations.

CALCULATION OF SHARE PRICE

The share price or NAV of shares of the Fund is determined as of the close of the regular session of trading on the New York Stock Exchange (the “NYSE”) on each day the NYSE is open for trading. Currently, the NYSE is open for trading on every day except Saturdays, Sundays and the following holidays: New Year’s Day, Martin Luther King, Jr. Day, Presidents’ Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

For purposes of computing the Fund’s NAV, securities are valued at market value as of the close of regular trading on the NYSE (normally, 4:00 p.m. Eastern Time) on each business day the NYSE is open. Securities listed on the NYSE or other exchanges are valued based on their last sale prices on the exchanges on which they are primarily traded. If there are no sales on that day, the securities are valued at the mean of the closing bid and ask prices on the NYSE or other primary exchange for that day. National Association of Securities Dealers Automated Quotations (“NASDAQ”) listed securities are valued at the NASDAQ Official Closing Price. If there are no sales on that day, the securities are valued at the mean of the most recently quoted bid and ask prices as reported by NASDAQ. Securities traded in the OTC market are valued at the last sale price, if available, otherwise at the mean of the most recently quoted bid and ask prices.

In the event that market quotations are not readily available or are considered unreliable due to market or other events, securities and other assets are valued at fair value as determined in good faith in accordance with procedures adopted by the Board. Fixed-income securities are normally valued based on prices obtained from independent third-party pricing services approved by the Board, which are generally determined with consideration given to institutional bid and last sale prices and take into account security prices, yield, maturity, call features, ratings, institutional sized trading in similar groups of securities and developments related to specific securities. Foreign securities are normally valued on the basis of fair valuation prices obtained from independent third-party pricing services approved by the Board, which are generally determined with consideration given to any change in price of the foreign security and any other developments related to the foreign security since the last sale price on the exchange on which such foreign security primarily traded and the close of regular trading on the NYSE. One or more pricing services may be utilized to determine the fair value of securities held by the Fund. The methods used by independent pricing services and the quality of valuations so established are reviewed by the Adviser and the Fund’s administrator (the “Administrator”) under the general supervision of the Board. To the extent the assets of the Fund are invested in other open-end investment companies that are registered under the 1940 Act and not traded on an exchange, the Fund’s NAV is calculated based upon the NAVs reported by such registered open-end investment companies, and the prospectuses for these companies explain the circumstances under which they will use fair value pricing and the effects of using fair value pricing.

ADDITIONAL PURCHASE AND REDEMPTION INFORMATION

Shares of the Fund are offered for sale on a continuous basis. Shares are sold and redeemed at their NAV, as next determined after receipt of the purchase or redemption order in proper form.

The Fund may suspend the right of redemption or postpone the date of payment for shares during a period when: (a) trading on the NYSE is restricted by applicable rules and regulations of the SEC; (b) the NYSE is closed for other than customary weekend and holiday closings; (c) the SEC has by order permitted these suspensions; or (d) an emergency exists as a result of which: (i) disposal by the Fund of securities owned by it is not reasonably practicable, or (ii) it is not reasonably practicable for the Fund to determine the value of its assets.

The Fund reserves the right to make payment for a redemption in securities rather than cash, which is known as a “redemption in kind”. Redemptions in kind will be made only under extraordinary circumstances and if the Fund deems it advisable for the benefit of its shareholders, such as a very large redemption that could affect Fund operations (for example, more than 1% of the Fund’s net assets). A redemption in kind will consist of liquid securities equal in market value to the Fund shares being redeemed, using the same valuation procedures that the Fund uses to compute its NAV. Redemption in kind proceeds will typically be made by delivering a pro-rata amount of the Fund’s holdings that are readily marketable securities to the redeeming shareholder within 7 days after the Fund’s receipt of the redemption order in proper form. If the Fund redeems your shares in kind, you will bear the market risks associated with maintaining or selling the securities paid as redemption proceeds. In addition, when you sell these securities, you bear the risk that the securities have become less liquid and are difficult to sell. You also will be responsible for taxes and brokerage charges associated with selling the securities.

SPECIAL SHAREHOLDER SERVICES

As noted in the Prospectus, the Fund offers the following shareholder services:

Regular Account. The regular account allows for voluntary investments to be made at any time. Available to individuals, custodians, corporations, trusts, estates, corporate retirement plans and others, investors are free to make additions to and withdrawals from their account as often as they wish. When an investor makes an initial investment in the Fund, a shareholder account is opened in accordance with the investor’s registration instructions. Each time there is a transaction in a shareholder account, such as an additional investment or a redemption, the shareholder will receive a confirmation statement showing the current transaction.

Automatic Investment Plan. The automatic investment plan enables investors to make regular periodic investments in shares through automatic charges to their checking account. With shareholder authorization and bank approval, the Fund’s transfer agent will automatically charge the checking account for the amount specified (\$100 minimum) which will be automatically invested in shares at the NAV on or about the fifteenth and/or the last business day of the month, or both. The shareholder may change the amount of the investment or discontinue the plan at any time by writing to the Fund.

Transfer of Registration. To transfer shares to another owner, send a written request to Adler Value Fund, c/o Ultimus Fund Solutions, LLC, P.O. Box 46707, Cincinnati, Ohio 45246-0707. Your request should include the following: (i) the Fund name and existing account registration; (ii) signature(s) of the registered owner(s) exactly as the signature(s) appear(s) on the account registration; (iii) if it is for a new account, a completed account application, or if it is an existing account, the account number; (iv) Medallion signature guarantees (See the heading “How to Redeem Shares – Signature Guarantees” in the Prospectus); and (v) any additional documents that are required for transfer by corporations, administrators, executors, trustees, guardians, etc. If you have any questions about transferring shares, call or write the Fund.

MANAGEMENT OF THE TRUST

Overall responsibility for management and supervision of the Fund and the Trust rests with the Board. The members of the Board (the “Trustees”) are elected by the Trust’s shareholders or existing members of the Board as permitted under the 1940 Act and the Trust’s Agreement and Declaration of Trust (the “Declaration of Trust”). Each Trustee serves for a term of indefinite duration until death, resignation, retirement or removal from office. The Trustees, in turn, elect the officers of the Trust to actively supervise the Trust’s day-to-day operations. The officers are elected annually. Certain officers of the Trust also may serve as Trustees.

The Trust will be managed by the Board in accordance with the laws of the State of Ohio governing business trusts. There are currently six Trustees, five of whom are not “interested persons,” as defined by the 1940 Act, of the Trust (the “Independent Trustees”). The Independent Trustees receive compensation for their services as Trustees and attendance at meetings of the Board. Officers of the Trust receive no compensation from the Trust for performing the duties of their offices.

Attached in Appendix A is a list of the Trustees and executive officers of the Trust, their year of birth and address, their present position with the Trust, length of time served in their position, and their principal occupation(s) during the past five years, and any other directorships held by the Trustee. Those Trustees who are “interested persons” as defined in the 1940 Act and those Trustees who are Independent Trustees are identified in the table.

Leadership Structure and Qualifications of Trustees. As noted above, the Board consists of six Trustees, five of whom are Independent Trustees. The Board is responsible for the oversight of the series, or funds, of the Trust.

In addition to the Fund, the Trust has other series managed by other investment advisers. The Board has engaged various investment advisers to oversee the day-to-day management of the Trust’s series. The Board is responsible for overseeing these investment advisers and the Trust’s other service providers in the operations of the Trust in accordance with the 1940 Act, other applicable federal and state laws, and the Declaration of Trust.

The Board meets at least four times throughout the year. The Board generally meets in person, but may meet by telephone as permitted by the 1940 Act. In addition, the Trustees may meet in person or by telephone at special meetings or on an informal basis at other times. The Independent Trustees also meet at least quarterly without the presence of any representatives of management.

Board Leadership

The Board is led by its Chairperson, Ms. Janine L. Cohen, who is also an Independent Trustee. The Chairperson generally presides at all Board Meetings, facilitates communication and coordination between the Trustees and management, and reviews meeting agendas for the Board and the information provided by management to the Trustees. The Chairperson works closely with Trust counsel and counsel to the Independent Trustees, and is also assisted by the Trust’s President, who, with the assistance of the Trust’s other officers, oversees the daily operations of the Fund, including monitoring the activities of all of the Fund’s service providers.

The Board believes that its leadership structure, including having an Independent Trustee serve as Chairperson and five out of six Trustees as Independent Trustees, is appropriate and in the best interests of the Trust. The Board also believes its leadership structure facilitates the orderly and efficient flow of information to the Independent Trustees from Trust management.

Board Committees. The Board has established the following standing committees:

Committee of Independent Trustees (the “Independent Trustees Committee”): The principal functions of the Independent Trustees Committee are: (i) to appoint, retain and oversee the Trust’s independent registered public accounting firm; (ii) to meet separately with the independent registered public accounting firm and receive and consider a report concerning its conduct of the audit, including any comments or recommendations it deems appropriate; (iii) to act as the Trust’s qualified legal compliance committee (“QLCC”), as defined in the regulations under the Sarbanes-Oxley Act; and (iv) to act as a proxy voting committee if called upon under the Trust’s Proxy Voting Policies and Procedures when a matter with respect to which a series of the Trust is entitled to vote presents a conflict between the interest of the series’ shareholders, on the one hand, and those of the series’ investment manager on the other hand. Messrs. David M. Deptula, Robert E. Morrison, and Clifford N. Schireson, and Mses. Janine L. Cohen and Jacqueline A. Williams are the members of the Independent Trustees Committee. Mr. Deptula is the Chairperson of the Independent Trustees Committee and presides at its meetings. The Independent Trustees Committee met six times during the Fund’s prior fiscal period.

Nominating Committee (the “Nominating Committee”): The Nominating Committee nominates and selects persons to serve as members of the Board, including Independent Trustees and “interested” Trustees. In selecting and nominating persons to serve as Independent Trustees, the Nominating Committee will not consider nominees recommended by shareholders of the Trust unless required by law. Messrs. Deptula, Morrison, and Schireson and Mses. Cohen and Williams are the members of the Nominating Committee. Ms. Cohen is the Chairperson of the Nominating Committee and presides at its meetings. The Nominating Committee did not meet during the Fund’s prior fiscal period.

Qualifications of the Trustees. The Nominating Committee reviews the experience, qualifications, attributes and skills of potential candidates for nomination or election by the Board. In evaluating a candidate for nomination or election as a Trustee, the Nominating Committee takes into account the contribution that the candidate would be expected to make to the diverse mix of experience, qualifications, attributes and skills that the Nominating Committee believes contribute to the oversight of the Trust’s affairs. The Board has concluded, based on the recommendation of the Nominating Committee, that each Trustee’s experience, qualifications, attributes or skills both on an individual basis and in combination with the other Trustees, that each Trustee is qualified to serve on the Board. The Board believes that the Trustees’ ability to review critically, evaluate, question and discuss information provided to them, to interact effectively with the Adviser, other service providers, legal counsel and the independent registered public accounting firm, and to exercise effective business judgment in the performance of their duties as Trustees support this conclusion. In determining that a particular Trustee is and will continue to be qualified to serve as a Trustee, the Board considers a variety of criteria, none of which, in isolation, is controlling.

In addition to the Trustee qualifications listed above, each of the Trustees has additional Trustee qualifications including, among other things, the experience identified in the “Trustees and Executive Officers” table included in Appendix A and as follows:

Interested Trustee

Robert G. Dorsey is a co-founder of Ultimus Fund Solutions, LLC (“Ultimus”) and Ultimus Fund Distributors, LLC (the “Distributor”). Mr. Dorsey serves as Vice Chairman of Ultimus and its subsidiaries (except as otherwise noted for FINRA-regulated broker-dealer entities). Mr. Dorsey served as President and Managing Director and Co-CEO of Ultimus and the Distributor from their founding in 1999 until April 2018 and served as Co-Chief Executive Officer and Managing Director of Ultimus from April 2018 until February 2019. Mr. Dorsey has over 30 years of experience in the mutual fund servicing industry. He holds a B.S. from Christian Brothers University and is a Certified Public Accountant (inactive). Mr. Dorsey has been a Trustee since February 2012.

Independent Trustees

David M. Deptula has served as Vice President of Legal and Special Projects for Dayton Freight Lines, Inc. since February 1, 2016. Prior to that position, Mr. Deptula was Vice President of Tax Treasury for Standard Register, Inc. (a company that provides solutions for companies to manage their critical communications, previously The Standard Register Company) since November 2011. (Standard Register, Inc. a newly formed subsidiary of Taylor Corporation, purchased assets of The Standard Register Company on July 31, 2015.) Prior to joining Standard Register, Mr. Deptula was a Tax Partner at Deloitte Tax LLP (“Deloitte”). Mr. Deptula joined Deloitte in 1984 and remained with Deloitte until October of 2011. During his tenure at Deloitte, he was actively involved in providing tax accounting services to open-end mutual funds and other financial services companies. Mr. Deptula holds a B.S. in Accounting from Wright State University and a Juris Doctor from University of Toledo. He is also a Certified Public Accountant. Mr. Deptula has been a Trustee since June 2012.

Janine L. Cohen, retired, was an executive at AER Advisors, Inc. (“AER”) from 2004 through her retirement in 2013. Ms. Cohen served as the Chief Financial Officer (“CFO”) from 2004 to 2013 and Chief Compliance Officer (“CCO”) from 2008 to 2013 at AER. During her tenure at AER, she was actively involved in developing financial forecasts, business plans, and SEC registrations. Prior to those roles at AER, Ms. Cohen was a Senior Vice President at State Street Bank. Ms. Cohen has over 30 years of experience in the financial services industry. She holds a B.S. in Accounting and Math from the University of Minnesota and is a Certified Public Accountant. Ms. Cohen has been the Chairperson since October 2019 and a Trustee since January, 2016.

Jacqueline A. Williams has served as the Managing Member of Custom Strategies Consulting, LLC since 2017, where she provides consulting services to investment managers. Prior to that, she served as a Managing Director of Global Investment Research for Cambridge Associates, LLC since 2005. Earlier in her career, Ms. Williams served as a Principal at Equinox Capital Management, LLC where she was chairperson of the stock selection committee and the firm’s financial services analyst. Ms. Williams also served as an Investment Analyst at IBJ Schroder Bank & Trust Company where she monitored U.S. financial services stocks. Ms. Williams has over 25 years of experience in the investment management industry. Ms. Williams earned an A.B. in Religion from Duke University and a Ph.D. in Religious Studies from Yale University. She has been a Chartered Financial Analyst charter holder since 1990. Ms. Williams has been a Trustee since June 2019.

Clifford N. Schireson is the founder of Schireson Consulting, LLC, which he launched in 2017. Prior to that, from 2004 to 2017, he was Director of Institutional Services at Brandes Investment Partners, LP, an investment advisory firm, where he was a member of the fixed-income investment committee. From 1998 to 2004, he was a Managing Director at Weiss, Peck & Greer LLC specializing in fixed-income products for both taxable and municipal strategies for institutional clients. Mr. Schireson has over 20 years of experience in the investment management industry. Mr. Schireson holds an A.B. in Economics from Stanford University and an M.B.A. from Harvard Business School. Mr. Schireson has been a Trustee since June 2019.

Robert E. Morrison serves as a Senior Vice President at Huntington Private Bank, where he has worked since 2014. From 2006 to 2014, he served as the CEO, President and Chief Investment Officer of 5 Star Investment Management. Mr. Morrison has a B.S. in Forestry Management from Auburn University and is a graduate of the Personal Financial Planning program of Old Dominion University. Mr. Morrison previously served on the Ultimus Managers Trust Board of Trustees as the Founding Chairman of the Trust in 2012. Mr. Morrison retired from the Board in 2014 as a result of a business conflict that no longer exists. Mr. Morrison has over 32 years of financial services experience, focusing on asset management and wealth management. Mr. Morrison has been a Trustee since June 2019.

References above to the qualifications, attributes and skills of Trustees are pursuant to requirements of the SEC, do not constitute holding out the Board or any Trustee as having any special expertise or experience, and shall not impose any greater responsibility on any such person or on the Board by reason thereof.

Risk Oversight. The operation of a mutual fund, including its investment activities, generally involves a variety of risks. As part of its oversight of the Fund, the Board oversees risk through various regular board and committee activities. The Board, directly or through its committees, reviews reports from, among others, the Adviser, the Trust's CCO, the Trust's independent registered public accounting firm, and outside legal counsel, regarding risks faced by the Fund and the risk management programs of the Adviser, with respect to the Fund's investments and trading activities, and certain service providers. The actual day-to-day risk management with respect to the Fund resides with the Adviser, with respect to the Fund's investments and trading activities, and other service providers to the Fund. Although the risk management policies of the Adviser and the service providers are designed to be effective, there is no guarantee that they will anticipate or mitigate all risks. Not all risks that may affect the Fund can be identified, eliminated or mitigated and some risks simply may not be anticipated or may be beyond the control of the Board or the Adviser or other service providers. The Independent Trustees meet separately with the Trust's CCO at least annually, outside the presence of management, to discuss issues related to compliance. Furthermore, the Board receives an annual written report from the Trust's CCO regarding the operation of the compliance policies and procedures of the Trust and its primary service providers. As part of its oversight function, the Board also may hold special meetings or communicate directly with Trust management or the Trust's CCO to address matters arising between regular meetings.

The Board also receives quarterly reports from the Adviser on the investments and securities trading of the Fund, including the Fund's investment performance, as well as reports regarding the valuation of the Fund's securities (when applicable). The Board also receives quarterly reports from the Administrator, transfer agent (the "Transfer Agent") and the Distributor on regular quarterly items and, where appropriate and as needed, on specific issues. In addition, in its annual review of the Fund's investment advisory agreement (the "Advisory Agreement"), the Board reviews information provided by the Adviser relating to its operational capabilities, financial condition and resources. The Board also conducts an annual self-evaluation that includes a review of its effectiveness in overseeing, among other things, the number of funds in the Trust and the effectiveness of the Board's committee structure.

Trustees' Ownership of Fund Shares. The following table shows each Trustee's beneficial ownership of shares of the Fund and, on an aggregate basis, of shares of all funds within the Trust overseen by the Trustee. Information is provided as of December 31, 2019.

Name of Trustee	Dollar Range of Shares owned by Trustee in	
	Adler Value Fund	All Funds in the Trust Overseen by Trustee
<i>Interested Trustee</i>		
Robert G. Dorsey	None	Over \$100,000
<i>Independent Trustees</i>		
David M. Deptula	None	None
Janine L. Cohen	None	None
Jacqueline A. Williams	None	None
Clifford N. Schireson	None	None
Robert E. Morrison	None	None

Ownership In Fund Affiliates. As of December 31, 2019, none of the Independent Trustees, nor members of their immediate families, owned, beneficially or of record, securities of the Adviser, the Distributor or any affiliate of the Adviser or the Distributor.

Trustee Compensation. No director, officer or employee of the Adviser or the Distributor receives any compensation from the Trust for serving as an officer or Trustee of the Trust. Each Independent Trustee receives a \$500 per meeting fee and a \$1,300 annual retainer for each series of the Trust, except the Chairperson who receives a \$1,500 annual retainer for serving as Chairperson. The Trust reimburses each Trustee and officer for their travel and other expenses incurred by attending meetings.

The following table provides the amount of compensation paid to each Trustee during the Fund's fiscal period ended May 31, 2020*:

Name of Trustee	Compensation From the Fund	Pension or Retirement Benefits Accrued As Part of Fund Expenses	Estimated Annual Benefits Upon Retirement	Total Compensation From all Funds Within the Trust
<i>Interested Trustee</i>				
Robert G. Dorsey	None	None	None	None
<i>Independent Trustees</i>				
John J. Discepoli [^]	\$1,750	None	None	\$26,375
David M. Deptula	\$3,800	None	None	\$57,975
Janine L. Cohen [^]	\$3,900	None	None	\$59,675
Jacqueline A. Williams	\$3,800	None	None	\$57,975
Clifford N. Schireson	\$3,800	None	None	\$57,975
Robert E. Morrison	\$3,800	None	None	\$57,975

[^] Mr. Discepoli served as Chairperson until his resignation as Chairperson on October 22, 2019, and a trustee until his resignation from the Board on October 25, 2019.

* The fiscal year end of the Fund changed from July 31st to May 31st.

Principal Holders of Voting Securities. As of September 9, 2020, the Trustees and officers of the Trust as a group beneficially owned (i.e., had direct or indirect voting and/or investment power) less than 1% of the then-outstanding shares of the Fund. On the same date, the following shareholders owned of record more than 5% of the outstanding shares of beneficial interest of the Fund:

Name and Address of Record Owner	Percentage Ownership
David Adler/IRA Account 180 E. 79th St., Apt. 7E New York, NY 10075	55.89%
Kurt W. Kleist/Sandra L. Kleist 205 Almadon Street Enumclaw, WA 98022	13.83%
David R. Adler/SEP IRA Account 180 E. 79th St., Apt. 7E New York, NY 10075	7.97%
Debra Ann Coleman 108 Jefferson St., Apt 3 Hoboken, NJ 07030	5.20%

A shareholder owning of record or beneficially more than 25% of the Fund's outstanding shares may be considered a controlling person. That shareholder's vote could have a more significant effect on matters presented at a shareholders' meeting than the vote of other shareholders.

INVESTMENT ADVISER

Adler Asset Management, LLC, located at 600 Third Avenue, Suite 226, New York, NY 10016, serves as the investment adviser to the Fund pursuant to the Advisory Agreement which is dated July 31, 2018. The Adviser was organized in 2018 and currently has no other clients. The Adviser is controlled by David Adler.

Subject to the Fund's investment objective and policies approved by the Board, the Adviser is responsible for providing the Fund with a continuous program of investing the Fund's assets and determining the composition of the Fund's portfolio.

The Advisory Agreement remains in effect for periods of one year each only so long as such renewal and continuance is specifically approved at least annually by the Board or by vote of a majority of the Fund's outstanding voting securities, provided the continuance is also approved by a majority of the Independent Trustees. The Advisory Agreement is terminable without penalty on 60 days' notice by the Board or by vote of a majority of the outstanding voting securities of the Fund. The Advisory Agreement provides that it will terminate automatically in the event of its "assignment," as such term is defined in the 1940 Act.

Under the Advisory Agreement, for its services, the Fund pays the Adviser a monthly investment advisory fee (the "Management Fee") computed at the annual rate of 1.00% of its average daily net assets. The Adviser has agreed to reduce its Management Fee and to reimburse Fund expenses to the extent necessary to limit Total Annual Operating Expenses (excluding brokerage costs, taxes, interest, borrowing costs such as interest and dividend expenses on securities sold short, costs to organize the Fund, Acquired Fund fees and expenses, and extraordinary expenses such as litigation and merger or reorganization costs and other expenses not incurred in the ordinary course of the Fund's business) to 1.50% and 1.25%, respectively, of the average daily net assets for the Investor Class and Institutional Class shares of the Fund until December 1, 2021. Any such fee reductions by the Adviser, or reimbursements by the Adviser of expenses which are the Fund's obligation, are subject to repayment by the Fund for a period of three years after the date that such fees and expenses were waived or reimbursed provided that the repayments do not cause Total Annual Fund Operating Expenses (exclusive of such reductions and reimbursements) to exceed (i) the expense limitation then in effect, if any, and (ii) the expense limitation in effect at the time the expenses to be repaid were incurred.

The Adviser manages the Fund's investments in accordance with the stated investment objective and policies of the Fund, subject to the oversight of the Board. The Adviser is responsible for investment decisions, and provides the Fund with a portfolio manager to execute purchases and sales of securities. The Advisory Agreement provides that the Adviser shall not be liable for any error of judgment or for any loss suffered by the Trust or the Fund in connection with the performance of its duties, except a loss resulting from a breach of fiduciary duty with respect to receipt of compensation for services (in which case any award of damages shall be limited to the period and the amount set forth in Section 36(b)(3) of the 1940 Act) or a loss resulting from willful misfeasance, bad faith or gross negligence on the part of the Adviser in the performance of its duties, or from reckless disregard of its duties and obligations thereunder.

The table below provides the compensation paid to the Adviser by the Fund after Management Fee reductions and expense reimbursements made by the Adviser during the following fiscal period/years:

Fiscal Period/Year Ended	Management Fees Accrued	Management Fee Reductions	Expense Reimbursements	Net Advisory Fees Received by Adviser
May 31, 2020*	\$12,169	\$12,169	\$130,761	\$0
July 31, 2019	\$12,773	\$12,773	\$122,082	\$0

* The fiscal year end of the Fund changed from July 31st to May 31st.

Portfolio Manager

The Fund is managed by David Adler (the "Portfolio Manager"), who has primary responsibility for the day-to-day implementation of investment strategies for the Fund.

Other Accounts Managed by Portfolio Manager

As of the date of this SAI, the Portfolio Manager is not responsible for the day-to-day management of any other accounts, and therefore there are no potential conflicts of interest with his management of the Fund's investment, on the one hand, and the investments of other accounts managed by the Portfolio Manager, on the other hand.

Compensation

Mr. Adler is not compensated directly by the Fund. Rather, Mr. Adler is the principal owner of the Adviser, and therefore draws compensation from its profits. As such, performance and asset levels of the Fund will directly affect the profits of the Adviser and indirectly the total compensation paid to Mr. Adler.

Ownership of Fund Shares

The table below shows the value of shares of the Fund beneficially owned by the Portfolio Manager of the Fund at the end of the fiscal period ended May 31, 2020, stated as one of the following ranges: A = None; B = \$1–\$10,000; C = \$10,001–\$50,000; D = \$50,001–\$100,000; E = \$100,001–\$500,000; F = \$500,001–\$1,000,000; and G = over \$1,000,000.

Name of Portfolio Manager	Dollar Range of Shares of the Fund
David Adler	G

PORTFOLIO TRANSACTIONS

Pursuant to the Advisory Agreement, the Adviser determines, subject to the general supervision of the Board and in accordance with the Fund's investment objective, policies and restrictions, which securities are to be purchased and sold by the Fund and which brokers are eligible to execute the Fund's portfolio transactions.

Purchases and sales of portfolio securities that are debt securities usually are principal transactions in which portfolio securities are normally purchased directly from the issuer or from an underwriter or market maker for the securities. Purchases from underwriters of portfolio securities generally include a commission or concession paid by the issuer to the underwriter, and purchases from dealers serving as market makers may include the spread between the bid and asked prices. Transactions on stock exchanges involve the payment of negotiated brokerage commissions. Transactions in the OTC market are generally principal transactions with dealers. With respect to the OTC market, the Fund, where possible, will deal directly with the dealers who make a market in the securities involved except under those circumstances where better price and execution are available elsewhere.

Allocation of transactions, including their frequency, to various brokers and dealers is determined by the Adviser consistent with its obligation to seek best execution. The primary consideration is prompt execution of orders in an effective manner at the most favorable price. Other factors that may be considered include, but are not limited to, reputation, financial strength and stability, creditworthiness, efficiency of execution and error resolution, the actual executed price and the commission, research (including economic forecasts, fundamental and technical advice on securities, valuation advice on market analysis); custodial and other services provided for the enhancement of the Adviser's portfolio management capabilities; the size and type of the transaction; the difficulty of execution and the ability to handle difficult trades; and the operational facilities of the brokers and/or dealers involved (including back office efficiency). Subject to these considerations, brokers who provide investment research to the Adviser may receive orders for transactions on behalf of the Fund. Information so received is in addition to and not in lieu of services required to be performed by the Adviser and does not reduce the fees payable to the Adviser by the Fund. Such information may be useful to the Adviser in serving both the Fund and other clients and, conversely, supplemental information obtained by the placement of brokerage orders of other clients may be useful to the Adviser in carrying out its obligations to the Fund. In selecting a broker-dealer to execute transactions (or a series of transactions) and determining the reasonableness of the broker-dealer's compensation, the Adviser need not solicit competitive bids and does not have an obligation to seek the lowest available commission cost for the reasons discussed above.

Consistent with the foregoing, under Section 28(e) of the Securities Exchange Act of 1934, as amended, the Adviser is authorized to pay a brokerage commission in excess of that which another broker might have charged for effecting the same transaction, in recognition of the value of brokerage and/or research services provided by the broker. The research received by the Adviser may include, without limitation: information on the United States and other world economies; information on specific industries, groups of securities, individual companies, political and other relevant news developments affecting markets and specific securities; technical and quantitative information about markets; analysis of proxy proposals affecting specific companies; accounting and performance systems that allow the Adviser to determine and track investment results; and trading systems that allow the Adviser to interface electronically with brokerage firms, custodians and other providers. Research is received in the form of written reports, telephone contacts, personal meetings, research seminars, software programs and access to computer databases. In some instances, research products or services received by the Adviser may also be used by the Adviser for functions that are not research related (i.e., not related to the making of investment decisions). Where a research product or service has a mixed use, the Adviser will make a reasonable allocation according to its use and will pay for the non-research function in cash using its own funds.

Subject to the requirements of the 1940 Act and procedures adopted by the Board, the Fund may execute portfolio transactions through any broker or dealer and pay brokerage commissions to a broker (i) which is an affiliated person of the Trust, or (ii) which is an affiliated person of such person, or (iii) an affiliated person of which is an affiliated person of the Trust, the Adviser or the Trust's principal underwriter. The Fund paid the following brokerage commissions during the following fiscal period/years:

Fiscal Period/Year Ended	Brokerage Commission Paid
May 31, 2020*	\$202
July 31, 2019	\$119

* The fiscal year end of the Fund changed from July 31st to May 31st.

THE DISTRIBUTOR

The Distributor, located at 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246, remains the exclusive agent for distribution of shares of the Fund pursuant to a Distribution Agreement (the "Distribution Agreement"). The Distributor is obligated to sell shares of the Fund on a best efforts basis only against purchase orders for the shares. Shares of the Fund are offered to the public on a continuous basis. The Distributor is compensated for its services to the Trust under a written agreement for such services. The Distributor is an affiliate of Ultimus. Robert G. Dorsey serves as a Vice Chairman of Ultimus and as a Trustee of the Trust. He was a Managing Director of the Distributor from 1999 until April 2018.

By its terms, the Distribution Agreement is for an initial term of two years and will continue in effect year-to-year thereafter so long as such continuance is approved at least annually by (1) the Board or (2) a vote of the majority of the Fund's outstanding voting shares; provided that in either event continuance is also approved by a majority of the Independent Trustees, by a vote cast in person at a meeting called for the purpose of voting such approval. The Distribution Agreement may be terminated at any time, on sixty days written notice, without payment of any penalty, by the Trust or by the Distributor. The Distribution Agreement automatically terminates in the event of its assignment, as defined by the 1940 Act and the rules thereunder. Under the Distribution Agreement, the Distributor is paid \$6,000 per annum for its services by the Fund and/or the Adviser.

OTHER SERVICE PROVIDERS

Administrator, Fund Accountant and Transfer Agent

Ultimus, located at 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246, serves as the Administrator, fund accountant (the “Fund Accountant”), and Transfer Agent to the Fund pursuant to a Master Services Agreement (the “Master Services Agreement”).

As Administrator, Ultimus assists in supervising all operations of the Fund (other than those performed by the Adviser under the Advisory Agreement). Ultimus has agreed to perform or arrange for the performance of the following services (under the Master Services Agreement, Ultimus may delegate all or any part of its responsibilities thereunder):

- prepares and assembles reports required to be sent to the Fund’s shareholders and arranges for the printing and dissemination of such reports;
- assembles reports required to be filed with the SEC and files such completed reports with the SEC;
- files the Fund’s federal income and excise tax returns and the Fund’s state and local tax returns;
- assists and advises the Fund regarding compliance with the 1940 Act and with its investment policies and limitations; and
- makes such reports and recommendations to the Board as the Board reasonably requests or deems appropriate.

As Fund Accountant, Ultimus maintains the accounting books and records for the Fund, including journals containing an itemized daily record of all purchases and sales of portfolio securities, all receipts and disbursements of cash and all other debits and credits, general and auxiliary ledgers reflecting all asset, liability, reserve, capital, income and expense accounts, including interest accrued and interest received, and other required separate ledger accounts. Ultimus also maintains a monthly trial balance of all ledger accounts; performs certain accounting services for the Fund, including calculation of the NAV per share, calculation of the dividend and capital gain distributions, reconciles cash movements with the custodian, verifies and reconciles with the custodian all daily trade activities; provides certain reports; obtains dealer quotations or prices from pricing services used in determining NAV; and prepares an interim balance sheet, statement of income and expense, and statement of changes in net assets for the Fund.

As Transfer Agent, Ultimus performs the following services in connection with the Fund’s shareholders: maintains records for the Fund’s shareholders of record; processes shareholder purchase and redemption orders; processes transfers and exchanges of shares of the Fund on the shareholder files and records; processes dividend payments and reinvestments; and assists in the mailing of shareholder reports and proxy solicitation materials.

Ultimus receives fees from the Fund for its services as Administrator, Fund Accountant and Transfer Agent, and is reimbursed for certain expenses assumed pursuant to the Master Services Agreement.

The Master Services Agreement between the Trust, on behalf of the Fund, and Ultimus, unless otherwise terminated as provided in the Master Services Agreement, is renewed automatically for successive one-year periods.

The Master Services Agreement provides that Ultimus shall not be liable for any error of judgment or mistake of law or any loss suffered by the Trust in connection with the matters to which the Master Services Agreement relates, except a loss from willful misfeasance, bad faith or gross negligence in the performance of its duties, or from the reckless disregard by Ultimus of its obligations and duties thereunder.

During the fiscal period/years, listed below, Ultimus received the following fees from the Fund for its services as Administrator, Fund Accountant and Transfer Agent:

Fiscal Year/Period Ended	Administration	Fund Accounting	Transfer Agent
May 31, 2020*	\$22,500	\$22,623	\$10,000
July 31, 2019	\$23,032	\$23,120	\$11,516

* The fiscal year end of the Fund changed from July 31st to May 31st.

Custodian

MUFG Union Bank, N.A. (the “Custodian”), located at 350 California Street, Suite 2018, San Francisco, California 94104, serves as custodian to the Fund pursuant to a Custody Agreement. The Custodian’s responsibilities include safeguarding and controlling the Fund’s cash and securities, handling the receipt and delivery of securities, and collecting interest and dividends on the Fund’s investments.

Independent Registered Public Accounting Firm

BBD, LLP, located at 1835 Market Street, 3rd Floor, Philadelphia, Pennsylvania 19103, serves as the independent registered public accounting firm for the Fund and to audit the financial statements of the Fund for the fiscal year ending May 31, 2021 and assist in preparing the Fund’s federal, state, and excise tax returns for the fiscal year ending May 31, 2021.

Legal Counsel

Kilpatrick Townsend & Stockton LLP, located at 4208 Six Forks Road, Suite 1400, Raleigh, North Carolina 27609, serves as legal counsel to the Trust and the Trust’s Independent Trustees.

Compliance Consulting Agreement

Under the terms of a Compliance Consulting Agreement with the Trust, Ultimus provides an individual with the requisite background and familiarity with the federal securities laws to serve as the Trust’s CCO and to administer the Trust’s compliance policies and procedures. For these services, the Fund pays Ultimus a base fee of per annum, plus an asset-based fee computed at an annual rate. In addition, the Fund reimburses Ultimus for its reasonable out-of-pocket expenses relating to these compliance services. The Fund paid Ultimus \$10,000 for compliance services for the fiscal period from August 1, 2019 to May 31, 2020.

DISTRIBUTION PLAN

The Fund has adopted a Distribution Plan pursuant to Rule 12b-1 under the 1940 Act (the “Plan”) for the Investor Class of shares. See the section entitled “Distribution Plan” in the Prospectus for additional information on the specifics of the Plan. As required by Rule 12b-1, the Plan was approved by the Board and separately by a majority of the Independent Trustees who have no direct or indirect financial interest in the operation of the Plan. The Plan provides that the Trust’s Distributor or Treasurer shall provide to the Board, at least quarterly, a written report of the amounts expended pursuant to the Plan and the purposes of such expenditures. The Board will take into account the expenditures for purposes of reviewing operation of the Plan and in connection with their annual consideration of the renewal of the Plan.

Under the Plan, the Fund, on behalf of the Investor Class shares, may annually expend up to 0.25% of the Investor Class shares' average daily net assets to pay for any activity primarily intended to result in the sale of those shares and the servicing of shareholder accounts, provided that the Board has approved the category of expenses for which payment is being made. In connection therewith, the Investor Class shares of the Fund may pay up to 0.25% of its average daily net assets to the Distributor, as compensation for services or other activities that are primarily intended to result in the sale of shares, or reimbursement for expenses incurred in connection with services or other activities that are primarily intended to result in the sale of shares. The Distributor may enter into selling agreements with one or more selling agents under which such agents may receive compensation for distribution-related services from the Distributor, including, but not limited to, commissions or other payments to such agents based on the average daily net assets of the Investor Class shares attributable to them. The Fund does not participate in any joint distribution activities with other investment companies. Robert G. Dorsey, as an owner of the Distributor, may be deemed to receive an indirect benefit from the operation of the Plan.

As of the date of this SAI, the Investor Class shares are not being offered so no information regarding the Distribution Fees paid by the Fund is included in this SAI.

GENERAL INFORMATION

Other Payments by the Fund. The Fund may enter into agreements with financial intermediaries pursuant to which the Fund may pay financial intermediaries for non-distribution-related sub-transfer agency, administrative, sub-accounting, and other shareholder services. Payments made pursuant to such agreements are generally based on either (1) a percentage of the average daily net assets of Fund shareholders serviced by a financial intermediary, or (2) the number of Fund shareholders serviced by a financial intermediary. Any payments made pursuant to such agreements may be in addition to, rather than in lieu of, distribution fees the Fund may pay to financial intermediaries pursuant to the Fund's distribution plan.

Other Payments by the Adviser. The Adviser, in its discretion, may make payments from its own resources and not from Fund assets to affiliated or unaffiliated brokers, dealers, banks (including bank trust departments), trust companies, registered investment advisers, financial planners, retirement plan administrators, insurance companies, and any other institution having a service, administration, or any similar arrangement with the Fund, its service providers or their respective affiliates, as incentives to help market and promote the Fund and/or in recognition of its distribution, marketing, administrative services, and/or processing support.

These additional payments may be made to financial intermediaries that sell Fund shares or provide services to the Fund, the Distributor or shareholders of the Fund through the financial intermediary's retail distribution channel and/or fund supermarkets. Payments may also be made through the financial intermediary's retirement, qualified tuition, fee-based advisory, wrap fee bank trust, or insurance (e.g., individual or group annuity) programs. These payments may include, but are not limited to, placing the Fund in a financial intermediary's retail distribution channel or on a preferred or recommended fund list; providing business or shareholder financial planning assistance; educating financial intermediary personnel about the Fund; providing access to sales and management representatives of the financial intermediary; promoting sales of Fund shares; providing marketing and educational support; maintaining share balances and/or for sub-accounting, administrative or shareholder transaction processing services. A financial intermediary may perform the services itself or may arrange with a third party to perform the services.

The Adviser may also make payments from its own resources to financial intermediaries for costs associated with the purchase of products or services used in connection with sales and marketing, participation in and/or presentation at conferences or seminars, sales or training programs, client and investor entertainment and other sponsored events. The costs and expenses associated with these efforts may include travel, lodging, sponsorship at educational seminars and conferences, entertainment and meals to the extent permitted by law.

Revenue sharing payments may be negotiated based on a variety of factors, including the level of sales, the amount of Fund assets attributable to investments in the Fund by financial intermediaries' customers, a flat fee or other measures as determined from time to time by the Adviser. A significant purpose of these payments is to increase the sales of Fund shares, which in turn may benefit the Adviser through increased fees as Fund assets grow.

Investors should understand that some financial intermediaries may also charge their clients fees in connection with purchases of shares or the provision of shareholder services.

Description of Shares

The Trust is an unincorporated business trust organized under Ohio law on February 28, 2012. The Declaration of Trust authorizes the Board to divide shares into series, each series relating to a separate portfolio of investments, and to further divide shares of a series into separate classes. The shares of the Fund are currently divided into two classes, the Investor Class shares and the Institutional Class shares, which are described in the Prospectus. Institutional Class shares are being offered as of the dates of this SAI. Additional classes may be created at any time. In the event of a liquidation or dissolution of the Trust or an individual series or class, shareholders of a particular series or class would be entitled to receive the assets available for distribution belonging to such series or class. Shareholders of a series or class are entitled to participate equally in the net distributable assets of the particular series or class involved on liquidation, based on the number of shares of the series or class that are held by each shareholder. If any assets, income, earnings, proceeds, funds or payments are not readily identifiable as belonging to any particular series or class, the Board shall allocate them among any one or more series or classes as the Board, in its sole discretion, deems fair and equitable. Subject to the Declaration of Trust, determinations by the Board as to the allocation of liabilities, and the allocable portion of any general assets, with respect to the Fund and each class of the Fund is conclusive.

Shares of the Fund, when issued, are fully paid and non-assessable. Shares have no subscription, preemptive or conversion rights. Shares do not have cumulative voting rights. Shareholders are entitled to one vote for each full share held and a fractional vote for each fractional share held. Shareholders of all series and classes of the Trust, including the Fund, will vote together and not separately, except as otherwise required by law or when the Board determines that the matter to be voted upon affects only the interests of the shareholders of a particular series or class. Rule 18f-2 under the 1940 Act provides, in substance, that any matter required to be submitted to the holders of the outstanding voting securities of an investment company such as the Trust shall not be deemed to have been effectively acted upon unless approved by the holders of a majority of the outstanding shares of each series or class affected by the matter. A series or class is affected by a matter unless it is clear that the interests of each series or class in the matter are substantially identical or that the matter does not affect any interest of the series or class. Under Rule 18f-2, the approval of an investment advisory agreement, a distribution plan or any change in a fundamental investment policy would be effectively acted upon with respect to a series or class only if approved by a majority of the outstanding shares of such series or class. However, the Rule also provides that the ratification of the appointment of independent accountants and the election of Trustees may be effectively acted upon by shareholders of the Trust voting together, without regard to a particular series or class.

Trustee Liability

The Declaration of Trust provides that the Trustees will not be liable in any event in connection with the affairs of the Trust, except as such liability may arise from his or her own bad faith, willful misfeasance, gross negligence or reckless disregard of their duties to the Trust and its holders of beneficial interest. It also provides that all third parties shall look solely to the Trust's property for satisfaction of claims arising in connection with the affairs of the Trust. With the exceptions stated, the Declaration of Trust provides that a Trustee or officer is entitled to be indemnified against all liability in connection with the affairs of the Trust.

Trust Liability

Under Ohio law, liabilities of the Trust to third persons, including the liabilities of any series, extend to the whole of the trust estate to the extent necessary to discharge such liabilities. However, the Declaration of Trust contains provisions intended to limit the liabilities of each series to the applicable series and the Trustees and officers of the Trust intend that notice of such limitation be given in each contract, instrument, certificate, or undertaking made or issued on behalf of the Trust by the Trustees or officers. There is no guarantee that the foregoing steps will prove effective or that the Trust will be successful in preventing the assets of one series from being available to creditors of another series.

Code of Ethics

The Trust, the Adviser and the Distributor have each adopted a code of ethics (each, a "COE" and collectively, the "COEs") that is designed to prevent their respective personnel subject to the COEs from engaging in deceptive, manipulative, or fraudulent activities in connection with securities held or to be acquired by the Fund (which securities may also be held by persons subject to the COEs). These COEs permit personnel subject to the COEs to invest in securities, including securities that may be purchased or held by the Fund, but prohibit such personnel from engaging in personal investment activities which compete with or attempt to take advantage of the Fund's planned portfolio transactions. Each of these parties monitors compliance with its respective COE.

Anti-Money Laundering Program

The Trust has adopted an anti-money laundering ("AML") program, as required by applicable law, that is designed to prevent the Funds from being used for money laundering or the financing of terrorist activities. The Trust's AML Compliance Officer is responsible for implementing and monitoring the operations and internal controls of the program. Compliance officers at certain of the Funds' service providers are also responsible for monitoring aspects of the AML program. The AML program is subject to the continuing oversight of the Board.

Proxy Voting Policies and Procedures

The Trust and the Adviser have adopted Proxy Voting Policies and Procedures that describe how the Fund intends to vote proxies relating to portfolio securities. The Proxy Voting Policies and Procedures of the Trust and the Adviser are attached to this SAI as Appendix B and Appendix C, respectively. No later than August 31st of each year, information regarding how the Fund voted proxies relating to portfolio securities during the prior twelve-month period ended June 30th is available without charge upon request by calling 1-800-408-4682, or on the SEC's website at www.sec.gov.

Portfolio Holdings Disclosure Policy

The Board has adopted a policy to govern the circumstances under which disclosure regarding securities purchased, sold, and held by the Fund (“Portfolio Securities”), may be made to shareholders of the Fund or other persons. The Trust’s CCO is responsible for monitoring the use and disclosure of information relating to Portfolio Securities. Although no material conflicts of interest are believed to exist that could disadvantage the Fund or its shareholders, various safeguards have been implemented to protect the Fund and its shareholders from conflicts of interest, including: the adoption of COEs pursuant to Rule 17j-1 under the 1940 Act designed to prevent fraudulent, deceptive or manipulative acts by officers and employees of the Trust, the Adviser and the Distributor in connection with their personal securities transactions; the adoption by the Adviser and the Distributor of insider trading policies and procedures designed to prevent their employees’ misuse of material non-public information; and the adoption by the Trust of a Code of Ethics for officers that requires the chief executive officer and CFO of the Trust to report to the Board any affiliations or other relationships that could potentially create a conflict of interest with the Fund.

- Public disclosure regarding Portfolio Securities is made in the Fund’s Annual Reports and Semi-Annual Reports to shareholders, and in quarterly holdings reports (“Official Reports”), which are available on the SEC’s website at <http://www.sec.gov> and may be reviewed and copied at the SEC’s Public Reference Room in Washington, D.C. Except for such Official Reports and as otherwise expressly permitted by the Trust’s policy, shareholders and other persons may not be provided with information regarding Portfolio Securities held, purchased or sold by the Fund.
- Information regarding Portfolio Securities and other information regarding the investment activities of the Fund, may be disclosed to rating and ranking organizations for use in connection with their rating or ranking of the Fund, but only if such disclosure is approved and monitored by the Trust’s CCO. Each disclosure arrangement has been authorized by the Fund and/or the Adviser in accordance with the Fund’s disclosure of portfolio holdings policy upon a determination that this disclosure serves a legitimate business purpose of the Fund and that each organization is subject to a duty of confidentiality.
- The Trust’s CCO may approve the disclosure of holdings of or transactions in Portfolio Securities that is made on the same basis to all shareholders of the Fund.
- The Fund’s policy relating to disclosure of holdings of Portfolio Securities does not prohibit disclosure of information to the Adviser or to other Trust service providers, including the Trust’s administrator, distributor, custodian, legal counsel, accountants, printers/typesetters, N-PORT and N-CEN vendors, pricing and liquidity vendors and consultants, or to brokers and dealers through which the Fund purchases and sells Portfolio Securities. Below is a table that lists each service provider that may receive non-public portfolio information along with information regarding the frequency of access to, and limitations on use of, portfolio information.

Type of Service Provider	Typical Frequency of Access to Portfolio Information	Restrictions on Use
Adviser	Daily	Contractual and Ethical
Administrator and Distributor	Daily	Contractual and Ethical
Custodian	Daily	Ethical
Accountants	During annual audit	Ethical
Legal counsel	Regulatory filings, board meetings, and if a legal issue regarding the portfolio requires counsel's review	Ethical
Printers/Typesetters	Twice a year – printing of Semi-Annual and Annual Reports	No formal restrictions in place – typesetter or printer would not receive portfolio information until at least 30 days old
Broker/dealers through which the Fund purchases and sells portfolio securities	Daily access to the relevant purchase and/or sale – no broker/dealer has access to the Fund's entire portfolio	Contractual and Ethical
N-PORT and N-CEN Vendors	Monthly or Annually	Contractual and Ethical
Pricing and Liquidity Vendors	Daily	Contractual and Ethical

Such disclosures may be made without approval of the Trust's CCO because the Board has determined that the Fund and its shareholders are adequately protected by the restrictions on use in those instances listed above.

- The Trust's CCO may approve other arrangements under which information relating to Portfolio Securities held by the Fund, or purchased or sold by the Fund (other than information contained in Official Reports), may be disclosed. The Trust's CCO shall approve such an arrangement only if he or she concludes (based on a consideration of the information to be disclosed, the timing of the disclosure, the intended use of the information and other relevant factors) that the arrangement is reasonably necessary to aid in conducting the ongoing business of the Trust and is unlikely to affect adversely the Fund or any shareholder of the Fund. The Trust's CCO must inform the Board of any such arrangements that are approved by the Trust's CCO, and the rationale supporting approval, at the next regular quarterly meeting of the Board following such approval.
- Neither the Adviser nor the Trust (or any affiliated person, employee, officer, trustee or director of the Adviser or the Trust) may receive any direct or indirect compensation in consideration of the disclosure of information relating to Portfolio Securities held, purchased, or sold by the Fund.

Other Expenses

In addition to the Management Fee and the Plan fees for the Investor Class of shares, the Fund pays all expenses not expressly assumed by the Adviser, including, without limitation, the fees and expenses of its independent registered public accounting firm and of its legal counsel; the fees of the Administrator, Distributor and Transfer Agent, the costs of printing and mailing to shareholders annual and semi-annual reports, proxy statements, prospectuses, SAI and supplements thereto; bank transaction charges and custody fees; any costs associated with shareholder meetings, including proxy solicitors' fees and expenses; registration and filing fees; federal, state or local income or other taxes; interest; membership fees of the Investment Company Institute and similar organizations; fidelity bond and liability insurance premiums; and any extraordinary expenses, such as indemnification payments or damages awarded in litigation or settlements made.

Benchmark Descriptions

The Fund compares its performance to standardized indices or other measurements of investment performance. Specifically, the Fund compares its performance to the S&P 500® Value Index, which, as a subset of the S&P 500® Index, tracks the 500 most widely held stocks on the NYSE or NASDAQ and consists of stocks held in the S&P 500® Index that exhibit the strongest value characteristics. The S&P 500® Value Index measures the performance of the large-capitalization value sector in the U.S. equity market using the ratios of book value, earnings, and sales to price.

ADDITIONAL TAX INFORMATION

The following summarizes certain additional tax considerations generally affecting the Fund and its shareholders that are not described in the Prospectus. No attempt is made to present a detailed explanation of the tax treatment of the Fund or its shareholders. The discussions here and in the Prospectus are not intended as a substitute for careful tax planning and are based on tax laws and regulations that are in effect on the date hereof; such laws and regulations may be changed by legislative, judicial, or administrative action. Investors are advised to consult their tax advisors with specific reference to their own tax situations.

The Fund has qualified and intends to remain qualified as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”). In order to so qualify, the Fund must elect to be a regulated investment company or have made such an election for a previous year and must satisfy certain requirements relating to the amount of distributions and source of its income for a taxable year. At least 90% of the gross income of the Fund must be derived from dividends, interest, payments with respect to securities loans, gains from the sale or other disposition of stocks, securities, or foreign currencies, and other income derived with respect to the Fund’s business of investing in such stock, securities, or currencies, and net income derived from an investment in a “qualified publicly traded partnership” as defined in section 851(h) of the Code (the “source-of-income test”). Any income derived by the Fund from a partnership (other than a “qualified publicly traded partnership”) or trust is treated as derived with respect to the Fund’s business of investing in stock, securities, or currencies only to the extent that such income is attributable to items of income that would have been qualifying income if realized by the Fund in the same manner as by the partnership or trust.

The Fund may not qualify as a regulated investment company for any taxable year unless it satisfies certain requirements with respect to the diversification of its investments at the close of each quarter of the taxable year (the “asset diversification tests”). In general, at least 50% of the value of the Fund’s total assets must be represented by cash, cash items, government securities, securities of other regulated investment companies, and other securities which, with respect to any one issuer, do not represent more than 5% of the total assets of the Fund nor more than 10% of the outstanding voting securities of such issuer. In addition, not more than 25% of the value of the Fund’s total assets may be invested in the securities (other than government securities or the securities of other regulated investment companies) of any one issuer; the securities of two or more issuers (other than securities of another regulated investment company) if the issuers are controlled by the Fund and they are, pursuant to Treasury Regulations, engaged in the same or similar or related trades or businesses; or the securities of one or more “qualified publicly traded partnerships”.

The Fund intends to satisfy all of the requirements of the source-of-income test and the asset diversification tests on an ongoing basis for continued qualification as a regulated investment company.

If the Fund fails to meet either the asset diversification test with respect to a taxable quarter or the source-of-income test with respect to a taxable year, the Code provides several remedies, provided certain procedural requirements are met, which will allow the Fund to retain its status as a “regulated investment company.” There is a remedy for failure to satisfy the asset diversification tests, if the failure was due to reasonable cause and not willful neglect, subject to certain divestiture and procedural requirements and the payment of a tax. In addition, there is a remedy for a de minimis failure of the asset diversification tests, which would require corrective action but no tax. In addition, the Code allows for the remedy of a failure of the source-of-income test, if the failure was due to reasonable cause and not willful neglect, subject to certain procedural requirements and the payment of a tax.

Under current tax law, qualifying corporate dividends are taxable at long-term capital gains tax rates. The long-term capital gains rate for individual taxpayers is currently at a maximum rate of 20%, with lower rates potentially applicable to taxpayers depending on their income levels. For 2020, individual taxpayers with taxable incomes above \$441,450 (\$496,600 for married taxpayers filing jointly, and \$469,050 for heads of households) are subject to a 20% rate of tax on long-term capital gains and qualified dividends. For individual taxpayers with taxable incomes not in excess of \$40,000 (\$80,000 for married taxpayers filing jointly, and \$53,600 for heads of household) the long-term capital gains rate and rate on qualified dividends is 0%. All other taxpayers are subject to a 15% rate of tax on long-term capital gains and qualified dividends. The above income thresholds are subject to adjustment for inflation.

If the Fund designates a dividend as a capital gains distribution, it generally will be taxable to shareholders as long-term capital gains, regardless of how long the shareholders have held their Fund shares or whether the dividend was received in cash or reinvested in additional shares. All taxable dividends paid by the Fund other than those designated as qualified dividend income or capital gains distributions will be taxable as ordinary income to shareholders, whether received in cash or reinvested in additional shares. To the extent the Fund engages in increased portfolio turnover, short-term capital gains may be realized, and any distribution resulting from such gains will be considered ordinary income for federal tax purposes.

The U.S. Department of the Treasury (the “U.S. Treasury”) recently issued Proposed Regulations which provide that regulated investment companies that receive qualified REIT dividend income may designate such amounts as Section 199A dividends. Qualified REIT dividend income is the excess of qualified REIT dividends received by the regulated investment company over the amount of the regulated investment company’s deductions that are properly allocable to such income. If the Fund designates a dividend as a Section 199A distribution, it may be treated by shareholders as a qualified REIT dividend that is taxed as ordinary income and for non-corporate taxpayers eligible for the 20% deduction for “qualified business income” under Code section 199A. Generally, only non-corporate shareholders who have held their shares for more than 45 days during the 91-day period beginning on the date which is 45 days prior to the ex-dividend date for such dividend are eligible for such treatment.

Shareholders who hold Fund shares in a tax-deferred account, such as a retirement plan, generally will not have to pay tax on Fund distributions until they receive distributions from their account.

The Fund will designate (1) any distribution that constitutes a qualified dividend as qualified dividend income; (2) any tax-exempt distribution as an exempt-interest dividend; (3) any distribution of long-term capital gains as a capital gain dividend; (4) any dividend eligible for the corporate dividends received deduction; and (5) any distribution that is comprised of qualified REIT dividend income as a Section 199A dividend as such in a written notice provided to shareholders after the close of the Fund’s taxable year. Shareholders should note that, upon the sale or exchange of Fund shares, if the shareholder has not held such shares for at least six months, any loss on the sale or exchange of those shares will be treated as long-term capital loss to the extent of the capital gain dividends received with respect to the shares.

Foreign currency gains or losses on non-U.S. dollar denominated bonds and other similar debt instruments and on any non-U.S. dollar denominated futures contracts, options and forward contracts that are not Section 1256 contracts generally will be treated as ordinary income or loss.

To the extent that a distribution from the Fund is taxable, it is generally included in a shareholder's gross income for the taxable year in which the shareholder receives the distribution. However, if the Fund declares a dividend in October, November, or December but pays it in January, it will be taxable to shareholders as if the dividend was received in the year it was declared. Each year, shareholders will receive a statement detailing the tax status of any Fund distributions for that year.

The Fund's net realized capital gains from securities transactions will be distributed only after reducing such gains by the amount of any available capital loss carryforwards. Capital losses may be carried forward to offset any capital gains.

A 4% nondeductible excise tax is imposed on regulated investment companies that fail to currently distribute an amount equal to specified percentages of their ordinary taxable income and capital gain net income (excess of capital gains over capital losses). The Fund intends to make sufficient distributions or deemed distributions of its ordinary taxable income and any capital gain net income prior to the end of each calendar year to avoid liability for this excise tax.

If for any taxable year the Fund does not qualify for the special federal income tax treatment afforded regulated investment companies, all of its taxable income will be subject to federal income tax at regular corporate rates (without any deduction for distributions to its shareholders). Such distributions will be taxable to the shareholders as dividends to the extent of the Fund's current and accumulated earnings and profits. Such distributions may be eligible for (i) the dividends-received deduction in the case of corporate shareholders or (ii) treatment as "qualified dividend income" in the case of noncorporate shareholders.

In general, a shareholder who sells or redeems shares will realize a capital gain or loss, which will be long-term or short-term depending upon the shareholder's holding period for Fund shares. An exchange of shares is treated as a sale and any gain may be subject to tax.

The Fund will be required in certain cases to withhold and remit to the U.S. Treasury a percentage (currently 24%) of taxable dividends or of gross proceeds realized upon sale paid to shareholders who have failed to provide a correct taxpayer identification number in the manner required, who are subject to withholding by the Internal Revenue Service for failure to include properly on their return payments of taxable interest or dividends, or who have failed to certify to the Fund that they are not subject to backup withholding when required to do so, or that they are "exempt recipients."

Depending upon the extent of the Fund's activities in states and localities in which its offices are maintained, in which its agents or independent contractors are located, or in which it is otherwise deemed to be conducting business, the Fund may be subject to the tax laws of such states or localities. In addition, in those states and localities that have income tax laws, the treatment of the Fund and its shareholders under such laws may differ from their treatment under federal income tax laws.

Certain U.S. shareholders, including individuals and estates and trusts, will be subject to an additional 3.8% Medicare tax on all or a portion of their “net investment income,” which should include dividends from the Fund and net gains from the disposition of shares of the Fund. U.S. shareholders are urged to consult their own tax advisors regarding the implications of the additional Medicare tax resulting from an investment in the Fund.

The Fund will send shareholders information each year on the tax status of dividends and distributions. A dividend or capital gains distribution paid shortly after shares have been purchased, although in effect a return of investment, is subject to federal income taxation. Dividends from net investment income, along with capital gains, will be taxable to shareholders, whether received in cash or reinvested in Fund shares and no matter how long the shareholder has held Fund shares, even if they reduce the NAV of shares below the shareholder’s cost, and thus, in effect, result in a return of a part of the shareholder’s investment.

Withholding taxes may be imposed on certain types of payments made to “foreign financial institutions” (as specifically defined in the Code) and certain other non-U.S. entities (including financial intermediaries). A 30% withholding tax is imposed on “withholdable payments” to a foreign financial institution or to a foreign non-financial entity, unless (i) the foreign financial institution undertakes certain diligence and reporting obligations or (ii) the foreign non-financial entity either certifies it does not have any substantial U.S. owners or furnishes identifying information regarding each substantial U.S. owner.

For these purposes, a “withholdable payment” includes any United States source payments of interest, dividends, rents, compensation and other fixed or determinable annual or periodical gains, profits and income. If the payee is a foreign financial institution, it must enter into an agreement with the U.S. Treasury requiring, among other things, that it undertake to identify accounts held by certain U.S. persons or U.S.-owned foreign entities, annually report certain information about such accounts, and withhold 30% on payments to account holders whose actions prevent it from complying with these reporting and other requirements. Non-U.S. investors should consult their tax advisors regarding this legislation and the potential implications of this legislation on their particular circumstances.

FINANCIAL STATEMENTS

The Fund’s audited financial statements for the 10-month fiscal period ended May 31, 2020*, including the Financial Highlights appearing in the Prospectus, are incorporated by reference and made a part hereof. You may request a copy of the Fund’s [Annual](#) and [Semi-Annual](#) Reports to shareholders at no charge by calling the Fund at 1-800-408-4682 or by visiting the Fund’s website at www.adlervaluefund.com.

* The fiscal year end of the Fund changed from July 31st to May 31st.

APPENDIX B

ULTIMUS MANAGERS TRUST PROXY VOTING POLICIES AND PROCEDURES

1. PURPOSE; DELEGATION

The purpose of this memorandum is to describe the policies and procedures for voting proxies received from issuers whose securities are held by each series (individually, a “Fund” and collectively, the “Funds”) of Ultimus Managers Trust (the “Trust”). The Board of Trustees of the Trust (the “Board”) believes that each Fund’s Investment Adviser is in the best position to make individual voting decisions for such Fund. Therefore, subject to the oversight of the Board, each Fund’s Investment Adviser is hereby delegated the duty to make proxy voting decisions for such Fund, and to implement and undertake such other duties as set forth in, and consistent with, these Policies and Procedures.

2. DEFINITIONS

Proxy. A proxy permits a shareholder to vote without being present at annual or special meetings. A proxy is the form whereby a person who is eligible to vote on corporate matters transmits written instructions for voting or transfers the right to vote to another person in place of the eligible voter. Proxies are generally solicited by management, but may be solicited by dissident shareholders opposed to management’s policies or strategies.

Proxy Manager. Proxy manager, as used herein, refers to the individual, individuals or committee of individuals appointed by the investment advisers to each Fund (each, an “Investment Adviser”) as being responsible for supervising and implementing these Policies and Procedures.

3. POLICY FOR VOTING PROXIES RELATED TO EXCHANGE TRADED FUNDS AND OTHER INVESTMENT COMPANIES.

Pursuant to Section 12(d)(1)(E)(iii) of the Investment Company Act of 1940, all proxies from Exchange Traded Funds (“ETFs”) or other Investment Companies voted by a Fund, registered in the name of the Fund, will have the following voting instructions typed on the proxy form: “Vote these shares in the same proportion as the vote of all other holders of such shares. The beneficial owner of these shares is a registered investment company.”

4. POLICY FOR VOTING PROXIES RELATED TO OTHER PORTFOLIO SECURITIES

Fiduciary Considerations. Proxies with respect to securities other than ETFs or other investment companies are voted solely in the interests of the shareholders of the Trust. Any conflict of interest must be resolved in the way that will most benefit the shareholders.

Management Recommendations. Since the quality and depth of management is a primary factor considered when investing in a company, the recommendation of management on any issue should be given substantial weight. The vote with respect to most issues presented in proxy statements should be cast in accordance with the position of the company’s management, unless it is determined that supporting management’s position would adversely affect the investment merits of owning the stock. However, each issue should be considered on its own merits, and the position of the company’s management should not be supported in any situation where it is found not to be in the best interests of the Trust’s shareholders.

5. CONFLICTS OF INTEREST

The Trust recognizes that under certain circumstances an Investment Adviser may have a conflict of interest in voting proxies on behalf of a Fund. Such circumstances may include, but are not limited to, situations where an Investment Adviser or one or more of its affiliates, including officers, directors or employees, has or is seeking a client relationship with the issuer of the security that is the subject of the proxy vote. The Investment Adviser shall periodically inform its employees that they are under an obligation to be aware of the potential for conflicts of interest on the part of the Investment Adviser with respect to voting proxies on behalf of a Fund, both as a result of the employee's personal relationships and due to circumstances that may arise during the conduct of the Investment Adviser's business, and to bring any conflict of interest of which they become aware to the attention of the proxy manager. With respect to securities other than ETFs or other investment companies, the Investment Adviser shall not vote proxies relating to such issuers on behalf of a Fund until it has determined that the conflict of interest is not material or a method of resolving such conflict of interest has been determined in the manner described below. A conflict of interest will be considered material to the extent that it is determined that such conflict has the potential to influence the Investment Adviser's decision-making in voting a proxy. Materiality determinations will be based upon an assessment of the particular facts and circumstances. If the proxy manager determines that a conflict of interest is not material, the Investment Adviser may vote proxies notwithstanding the existence of a conflict. If the conflict of interest is determined to be material, either (i) the conflict shall be disclosed to the Trust's Committee of Independent Trustees (the "Committee") and the Investment Adviser shall follow the instructions of the Committee or (ii) the Investment Adviser shall vote the issue in question based upon the recommendation of an independent third party under a contractual arrangement approved by the Committee. The proxy manager shall keep a record of all materiality decisions and report them to the Committee on an annual basis.

6. ROUTINE PROPOSALS

Proxies for routine proposals (such as election of directors, selection of independent public accountants, stock splits and increases in capital stock) with respect to securities other than ETFs or other investment companies should generally be voted in favor of management.

7. PROXY MANAGER APPROVAL

Votes on non-routine matters and votes against a management's recommendations with respect to securities other than ETFs or other investment companies are subject to approval by the proxy manager.

8. PROXY VOTING PROCEDURES

Proxy voting will be conducted in compliance with the policies and practices described herein and is subject to the proxy manager's supervision. A reasonable effort should be made to obtain proxy material and to vote in a timely fashion. Each Investment Adviser shall maintain records regarding the voting of proxies under these Policies and Procedures.

9. FORM N-PX

A record of each proxy vote will be entered on Form N-PX. A copy of each Form N-PX will be signed by the President of the Trust. The Form is to be filed by August 31 each year. Each reporting period covered by the Form N-PX runs from July 1 to June 30. The Trust will disclose in its annual and semi-annual reports to shareholders and in its registration statement (in the SAD) filed with the SEC on or after August 31 that each Fund's proxy voting record for the most recent twelve-month period ended June 30 is available without charge upon request and is also available on the SEC's Website at www.sec.gov.

10. INVESTMENT ADVISERS' VOTING PROCEDURES

The Trust acknowledges that the Investment Advisers to the various Funds have adopted voting policies and procedures for their clients that have been delivered to the Trust. To the extent that an Investment Adviser's policies and procedures are consistent with these Policies and Procedures, the Investment Adviser may implement them with respect to voting proxies on behalf of each Fund managed by such Investment Adviser. However, the provisions of paragraph 5 of these Policies and Procedures relating to conflicts of interest shall supersede any comparable provisions of any Investment Adviser's policies and procedures.

Securities Lending: If a Fund engages in securities lending, the proxy voting procedures of the Adviser of such Fund will include information on the recall of lent securities for voting purposes. More information can be found in the Securities Lending Procedures of the Trust.

APPENDIX C

ADLER ASSET MANAGEMENT, LLC

Proxy Voting Policy

Adler Asset Management has adopted the following proxy voting policies and procedures (the "Proxy Voting Policy") for the voting of proxies on behalf of client accounts for which Adler Asset Management has voting discretion by contract, including the Adler Asset Management Funds. Under this Proxy Voting Policy, shares are to be voted in a timely manner and in the best interests of the client. Adler Asset Management's CCO is responsible for monitoring compliance with these policies and procedures.

Pursuant to Section 12(d)(1)(E)(iii) of the investment Company Act of 1940, all proxies from Exchange Traded Funds ("ETFs") or other Investment Companies voted by a Fund, registered in the name of the Fund, will have the following voting instructions typed on the proxy form: "Vote these shares in the same proportion as the vote of all other holders of such shares. The beneficial owner of these shares is a registered investment company."

Routine issues will be voted with management in the majority of cases, while non-routine issues may be more frequently voted against management.

Routine issues include:

- Uncontested elections of Directors, including the number and terms of office, attendance, and the number of meetings held.
- Selection and ratification of auditors.
- Stock splits, dividend, and fractional share issues.
- Application for listing of securities.
- Corporate name changes.
- Pollution, environment, or conservation issues.
- Employment issues.
- Restore or eliminate pre-emptive rights.
- Fees paid to auditors for consultants.
- Business abroad.
- Date, location of annual meeting.
- Contributions to charity or for education.
- All other items which aren't expected to have a material adverse effect on the price of stock.
- Increases in authorized shares, common or preferred.

Non-Routine Issues include:

- Acquisitions, mergers, and spin-offs.
- Significant changes in the Articles of Incorporation or By-Laws, such as anti-takeover provisions, poison pills, and rights issues.
- Proxy fight or other control contest.
- Remuneration of management, directors, and employees. Employee Stock Option Plans.
- Cumulative voting issues.
- Golden parachute plans or any unusual compensation benefits to be awarded contingent upon the merger or acquisition of the particular company.

In exercising his or her discretion, the CCO may take into account a variety of factors relating to the matter under consideration, the nature of the proposal and the company involved. As a result, the CCO may vote in one manner in the case of one company and in a different manner in the case of another where, for example, the past history of the company, the character and integrity of its management, the role of outside directors, and the company's record of producing performance for investors justifies a high degree of confidence in the company and the effect of the proposal on the value of the investment.

Similarly, poor past performance, uncertainties about management and future directions, and other factors may lead the CCO to conclude that particular proposals present unacceptable investment risks and should not be supported. The CCO also evaluates proposals in context. A particular proposal may be acceptable standing alone, but objectionable when part of an existing or proposed package. Special circumstances may also justify casting different votes for different clients with respect to the same proxy vote.

Adler Asset Management may occasionally be subject to conflicts of interest in the voting of proxies due to business or personal relationships with persons having an interest in the outcome of certain votes. For example, Adler Asset Management or its affiliates may provide trust, custody, investment management, brokerage, underwriting, banking and related services to accounts owned or controlled by companies whose management is soliciting proxies. Occasionally, Adler Asset Management may also have business or personal relationships with other proponents of proxy proposals, participants in proxy contests, corporate directors or candidates for directorships. Adler Asset Management may also be required to vote proxies for securities issued by its affiliates or on matters in which Adler Asset Management has a direct financial interest, such as shareholder approval of a change in the advisory fees paid by a Fund.

Any conflict of interest must be resolved in the way that will most benefit the shareholders. Whether a relationship creates a material conflict will depend on the facts and circumstances. For example, even if the above listed persons do not attempt to persuade Adler Asset Management how to vote, the "value of the relationship" to Adler Asset Management may create a material conflict. If it is determined that the conflict of interest is not material, Adler Asset Management may vote proxies notwithstanding the existence of a conflict. If the conflict of interest is determined to be material, either (i) the conflict shall be disclosed to the client and Adler Asset Management shall follow the instructions of the client or (ii) Adler Asset Management shall vote the issue in question based upon the recommendation of an independent third party under a contractual arrangement approved by the client. The CCO shall keep a record of all materiality decisions and report them to the client on an annual basis.

Adler Asset Management has implemented the following process to administer proxy voting on behalf of our clients:

- To avoid excessive storage space, Adler Asset Management retains only one copy of each annual report and proxy statement received from the reporting companies. All others will not be retained.
- All proxy ballots are collected and grouped with that company's annual report and proxy statement.
- Every proxy ballot is recorded via an Excel spreadsheet on the day of receipt by:
 - Broker/dealer/custodian and account number
 - Date received in office of Adler Asset Management
 - Stock symbol
 - Number of shares to be voted
 - Voting deadline
 - Shareholder name – where possible
 - Proxy control number (on proxy statement)
- For companies with 5000 shares/votes or more, the CCO will conduct an in-depth analysis of the entire proxy ballot and all corporate board proposals. This analysis will be conducted to avoid any actual or potential material conflicts of interest. If a conflict of interest is evident after in-depth analysis, the Fund CCO will be contacted prior to voting to discuss the exact nature of the conflict and to obtain consent prior to voting. The CCO is responsible for maintaining evidence of the client contact.

- For companies with fewer than 5000 shares/votes, the CCO votes in the manner that he/she believes is in the best interest of the shareholder(s)/fund(s).
- Votes on non-routine matters and votes against a management's recommendations with respect to securities other than ETFs or other investment companies are subject to approval by the Fund CCO.
- After making his/her decision, the CCO then electronically votes each ballot.
- After voting the proxy ballots, an electronic confirmation of the vote(s) cast are sent to the CCO for his information and possibly comments.
- All electronic confirmations are printed, matched, and attached (by group) with the actual proxy ballots (ballot groupings).
- The reporting company's annual report, proxy statement and ballot groupings are then be preserved and maintained and available for retrieval if requested by any client/shareholder.

Adler Asset Management prepares and maintains the following records of its proxy voting:

- The proxy voting policies and procedures;
- Copies of proxy statements Adler Asset Management received for client securities;
- A record of each vote Adler Asset Management cast on behalf of a client;
- A copy of any document Adler Asset Management created that was material to making a decision on how to vote proxies on behalf of a client or that memorializes the basis for that decision; and
- A copy of each written client request for information on how Adler Asset Management voted proxies on behalf of the client, and a copy of any written response by Adler Asset Management to any (written or oral) client request for that information on behalf of the requesting client.

Clients are informed how they may obtain these proxy voting policies and procedures on Adler Asset Management's website, in the Statement of Additional Information ("SAI") and shareholder's reports for Funds managed by Adler Asset Management.

A report of proxies voted for Funds managed by Adler Asset Management is made quarterly to the Funds' Board, noting any proxies that were voted in exception to the Proxy Guidelines. The Fund's proxy voting record is filed on Form N-PX. An annual record of all proxy votes cast for Funds managed by Adler Asset Management during the most recent 12-month period ended June 30 can be obtained, free of charge, on the Fund's website, and on the SEC's website at www.sec.gov.
